RINL modernises Converter-3 in SMS-1

The Steel Melt Shop-1 of Visakhapatnam Steel Plant has achieved yet another milestone in performance today by successfully revamped its Converter-3 ahead of 10 days of schedule. This is as part of the modernisation of the existing units to take the overall capacity to 7.3 mtpa. Sri P Madhusudan, CMD, RINL, Visakhapatnam Steel Plant while inaugurating the first heat from the revamped Converter-3, congratulated the RINL collective and particularly the Modernization and Capital Repairs group for their notable performance and adherence to safety standards. He appreciated the efforts of one and all during his visit to the Converter-3 on october 27th,2016.
