Mr. Ranjeet Kumar resident of Patna Bihar He Visit Old Age Care Home after visited says they take very good care; the people over there are extremely happy and optimistic loved visiting. Local people Sri Suresh Singh Old Age Care Home visited after said a perfect retirement home for elder.

A perfect place for elderly people need home care or retirement stay facilities in Patna. A permanent doctor's team here is something that makes this elder care facility more safer place for our elders.

Well, by at the everyday bold banners claiming "Son threw Mother out of Home," or "Daughter- in-I ,aw misbehaved give no food to sick father." it is apparent to think that old Age Care Home, Patna have emerged due to stranded parents walking alone at the tough age their life. To equal great extant it is a harsh fact that in the contemporary our aged citizens are not leading a secured life, which often walls the out of Home taking in rescue houses

There have been many transformations in recent years that our lifestyles have changed to a great extant- some for the better while a few with negative consequences. The young population has been raping the benefits however, the senior citizen face certain problems as a consequences of the social transformation this is reflected in the transition from the traditional ways of life to the modern patterns which require many compromises and adjustments one of these involving old Age Care Home, Patna, Sponsored by RINL CSR Foundation Trust, Vishakhapatnam.

### **Impact and out come**

Firstly, if we go back to five decades from now to see the life pattern of elders and chronologically trace the developments that led to the slow yet steady changes that are necessitated by circumstances one will realise that there it the much-acclaimed joint family system where in older lived with not only their children but also with sister, brothers, uncles and aunts. The social fabric is well woven. However, the recently scenario changed slowly and steadily with the decline or disappearance of the joint family system, which is replaced by the nuclear family system, adding to the factors how and why families shrank over

the time also includes the major change in the traditional system of society where the lady of the house is once within four walls, looking after the younger and elder ones. As at now the scenario is changing as the women are also participating in activities outside the home and have their own career ambition.

There is nothing wrong with women dreaming and aspiring to become successful in life, is it, anybody and everybody have the right to choose and live the life they wish for. But targeting the women section safely being responsible for the shoddier condition of elder today would be unfair.

Many reasons may be attributed for this change, while Maximum cases reveal that had been abused and abandoned by their kids and relatives; there is other side to situation.

The senior citizen are alone possibly because of one or two child, dun like old fine where parents had attest five to eight kids, Many of the children have been serving to the nation by participating in Navy, Army, Air-forces for which they have to leave behind their portents alone, there are even those aged couples who never had any child for their own reasons, it is so because India, which takes pride in its young demographic, is actually undergoing a massive transition. While 8% of its population that accounts to 104 million people was recorded 60 years and above in 2011 census, it is expected to increase its share to 12.5% that is 158.7

Million elderly people by 2025, and accordingly 20 percent by 2050 respectively. This brings with it several sociological and Medical problems which most Bihar State have not even begun to fathom, with the kind of an aging scenario, there pressure an all aspects of care for the older person- be it financial, health or shelter. With the onset of the 21St century, the growing se4curity of older persons in Bihar is very visible.

## Our Organization Objects:-

For older people have nowhere to go and none to support them, our old age care home provide a safe haven, these old Age Care Home Create a family like atmosphere among the resident senior citizens experience a sense of security and friendship whom they share their joys and sorrows with each other they are in constant company of people their own age.

They are neither neglected not abandoned; An increasing number of elderly people are moving into old-age care home in search of safety, independence of companionship.

## Resident's feedback:-

"I didn't consult my daughter before deciding to live at old Age Care Home" Digha Patna, I've lived alone for 5 years and value my independence. I didn't feel safe living alone anymore and love the company her" Manju Devi a 67 year-old, says, Manju Devi is part of tight friend group of six who eat every meal together and spend their evenings sipping tea on their beautiful shared Terrance, she settled on old Age Care Home, Patna Bihar Many senior citizens across Patna are doing the same overturning of old Age Care Home Patna being places where neglected parents are abandoned by their kids. Rather, those choose to live in them see it as simply the next logical step, offering safety, independence and companionship.

Old Age Care Home, Digha Patna, in senior living facility is an airy, well-designed property with 40 rooms. Part of growing number of the nation's senior living facilities; it is higher-scale version of the traditional old age home.

Six month ago, Ramprit Paswan 76 Years, moved to Old Age Care Home Patna. " Both my sons and their wives are working and grandson go to school, I used to feel lonely, so I told my children about moving to an old age home where I can spend time with people like me. My children often come here to meet me and I also visit them says.
