INR.

5 PREQUALIFICATION (PQC) CRITERIA / ELIGIBILITY CRITERIA FOR CONSIDERATION OF TENDERS:

Single Similar Work Order Value in INR as per criteria given below this table	Annual Turnover in INR
766035.13	459621.07

Pre-qualification criteria (PQC) for consideration of Tender :

a) The agency should have experience in executing (successfully completed / in-progress) at least one single similar work of the following nature of value not less than INR 7,66,035.13 during last 7 years ending last day of previous month of the NIT date.

SINGLE SIMILAR EXPERIENCE: Agencies having experience in "Civil Construction or Maintenance Works" will only be considered.

Note : For the purpose of ascertaining the stipulation time i.e., 7 years ending previous month of the NIT date, the date of work completion/ work-in-progress of the work shall be considered, irrespective of date of issue of Work order / start date of the work. Further, the final completion value / executed value (in case of work-in-progress), shall be considered, irrespective of the period of execution of the Work.

b) The agency should have an average annual financial turnover of INR 4,59,621.07 during last three financial years (2021-22, 2022-23 & 2023-24) ending 31st March of previous financial year i.e., 31-03-2024

Self-attested (signed with date and Business / Official seal) copies of following documents by Authorized Signatory, in proof of the above shall be submitted along with the tender in C-folder.

i) Work Orders along with corresponding work completion certificates indicating the Final value of the work done including all deviations, extra items, escalations, if any against subject work with Bill of Quantities inclusive of all taxes & duties excluding Goods & Services Tax (GST), in proof of execution of similar work with value as at 5(a) above. In case of work executed outside VSP and where the total amount includes GST, agencies shall make efforts to get the value of GST indicated separately in the Work Completion Certificate

„In case of work-in-progress, Work-in-progress Certificate indicating start date as per Order and actual start date & value of work executed with date up to which it is considered against the subject work including all deviations, extra items, escalations, if any against subject work with Bill of Quantities and including all taxes and duties, but excluding Goods & Service Tax (GST) with certification of satisfactory performance of the Contractor to that extent and continuance of the said work by the respective employer

ii) Audited Balance Sheets & Profit & Loss accounts of the company or turnover certificates in the prescribed format available at www.vizagsteel.com----->Tenders----->Works Contracts----->Standard Documents----->Turnover Certificate for participation in tenders issued by RINL, duly certified / signed by a practicing Chartered Accountant / Cost Accountant for the years mentioned above in proof of 5(b).

6. NATURE & SCOPE OF WORK:

AS PER TENDER SCHEDULE

7 मद का विवरण/बी ओ क्यू।ITEM DETAILS/BOQ :

AS PER TENDER SCHEDULE

8 निविदा कागजात की सूची LIST OF TENDER DOCUMENTS:

This document along with those available in cFolders as below, constitute the complete Tender (NIT)

- 1) TENDER SCHEDULE COMPRISING OF RFX, BILL OF QUANTITIES, SCOPE OF WORK, TERMS AND CONDITIONS AND SPECIAL CONDITIONS OF CONTRACT
- 2) UNDERTAKING LETTER
- 3) BID SECURITY DECLARATION

9 E-RFX SUBMISSION PROCEDURE - 2 PART:

RINL is employing SAP SRM 7.0 for Electronic Tendering System. E-RFx Response to be submitted electronically through System only. No physical paper/print needs to be submitted. Bidders need to have UserID and Password to participate in SRM E-Tenders. All enlisted vendors of RINL would be provided User ID and password for participating in RINL E-Tenders. If a Bidder who wish to participate is not presently enlisted with RINL or not having User ID Password can obtain the same through Registration of Suppliers (RoS) system by providing requisite details well before the RFX Submission deadline. Bidders to go through the User Manual of RoS system available in SRM Portal for detailed steps for obtaining User ID & Password.

In 2-Part E-RFx, Technical RFX Response is uploaded to PQC/Tech RFX cFolder and Price RFX is quoted in Bidding Engine. E-Tendering User Manual available in SRM Portal contains the procedure participating in RINL E-Tenders.

Bidders to ensure the following before submitting the 2-Part E-RFx Response

- a. All Mandatory questions are answered and Requisite documents are uploaded into PQC cFolder including Bid Security Declaration and Undertaking letter.
- b. All Techno-Commercial documents required as per tender document are uploaded into "Tech RFX" cFolder.
- c. Prices and Taxes (Conditions) are quoted in the bidding engine.

Then upon ensuring confirmation of RFX response is complete and contains no errors, RFX Response to be Submitted.

Bidders to ensure that E-RFx Response submission is done before "Submission deadline date & Time" indicated in the NIT Key information at 2 above. RFX can be "withdrawn" and modified as long as "Submission deadline date & Time" is not over. RFX Response cannot be modified once Submission deadline time passed.

10 E-RFX OPENING PROCEDURE - 2 PART:

E-RFx Responses are opened in the system Electronically.

System allows opening of RFX responses only after the specified date and Time as indicated at 2 Key information above. Authorized Tender opening officers through the process of "Simultaneous Log-on" shall open the RFX Responses in System.

For 2-Part E-RFx first "PQC" & "Tech RFX" cFolders are opened in the system through Simultaneous Log-on Process. Then Price RFX responses opening event will be executed on a specified Date & Time through Simultaneous Log-on process for Techno-Commercially Accepted Responses intimation to Bidders.

11 DOCUMENTS TO BE UPLOADED IN TECH BID C FOLDER:

****Note:** Documents submitted in "Notes & Attachments" folder will not be considered for evaluation

The agency can submit the following:

- A) Bid Security Declaration as per Annexure attached is to be submitted
- OR
- B) UDYAM Registration Certificate issued by Ministry of MSME.

If the documents mentioned at either Para(A) or Para(B) are not submitted in full in all respects, these documents shall not be sought and the bid will be REJECTED.

The files uploaded in Tech_bid folder as current version only will be considered for evaluation

- C) Signed Undertaking letter on the agency's letter head in the format given in the tender schedule

D) PQC related Statutory Documents to be submitted, wherever required

- i) Electrical License (For Electrical contracts) as mentioned at para-5 above
- ii) Boiler License (For cases wherever required) Agencies should have boiler repair license, Category- 1 issued by the Directorate of Boilers, Andhra Pradesh

iii) Competency Certificate issued by Director of Factories, AP For Persons competent to carry out Inspection & Certification of Lifting Equipments, Pressure Vessels and Elevators etc

E) Agencies Copy of registration letter issued by V.S.P. in case of registered agencies and in case of non-registered agencies, either a copy of Notarized Sole Proprietorship Affidavit OR a copy of Notarized Partnership Deed along with Firm Registration Certificate OR a copy of Memorandum of Association & Articles of Association along with certificate of incorporation – whichever is applicable.

Note : if the Partnership Firm is re-constituted, the latest Notarized Re-constituted Partnership Deed along with Firm Registration Certificate of the re-constituted firm along with the original Notarized Partnership Deed is to be submitted.

F) For Turnover Audited Profit & Loss Account statements & balance sheets certified by Practicing Chartered Accountant with Stamp and Membership No. & Unique Document Identification Number (UDIN) in case the annual Turn-over is more than Rs.100.00 Lakhs (OR) in case of Turn-Over being less than Rs.100.00 lakhs either Turn-over certificate in the prescribed format of VSP duly signed by a practicing Chartered Accountant/Cost Accountant with Stamp and Membership No. & UDIN (OR) T.D.S. certificate(s) comprising of the Gross bill values issued by the Deductor(s) for the work done.

G) Work Order(s) and Work Completion Certificate(s) / Work-in-progress certificate(s) as indicated at Clause-5 above.

H) INTEGRITY PACT: (Applicable for estimate value of one crore and above)

(i) Tenderers are required to unconditionally accept the "Integrity Pact" enclosed to the tender document and shall submit the same duly signed along with their offer. Offer of the tenderers received without Integrity Pact duly signed, shall not be considered.

(ii) The details of External Independent Monitors (EIMs) and Nodal Officer of RINL are placed to VSP website (www.vizagsteel.com) at Tenders->Works Contracts->General Instructions->Click here 'to Read Integrity Pact' / to Give Vigilance Complaints' ->Integrity Pact VSP

VSP reserves the right to reject the offer in case the required documents are not submitted.

Note : (i) Tenderers shall submit GST Registration Certificate under GST act if available. If not available, successful tenderer shall produce Registration Certificate under GST Act, wherever applicable, before signing the Work Order / Letter of Acceptance and submit a copy of the same.

(ii) Tenderers shall submit the PF Registration Certificate if available, if not available successful tenderer shall submit PF Registration Certificate before commencement of the work.

Documents mentioned at 11(E) to 11(G) are applicable for Open Tenders /LTE cases only

12 E-RFX EVALUATION PROCESS:

(a) Pre-qualification evaluation shall be done based on the documents submitted by the bidders in PQC & Tech RFX cFolders.

(b) All the RFXs shall be evaluated on the basis of landed cost only which includes all taxes and duties but excluding Goods & Service Tax (GST).

(c) TAL1 (Technically accepted L1) price arrived by the system shall follow automatically to Auction document as start bid price for all cases of Reverse Auction and will be visible in the system only after the start time of Live Auction (E-Reverse Auction).

(d) On completion of Live Auction, composite comparative statement is generated by the system considering the RFX Prices and Reverse Auction Prices. Placement of Order shall be considered on the L-1 price so arrived.

(e) Notwithstanding anything specified in this tender documents, RINL, in its sole discretion, unconditionally and without having to assign any reason, reserves the following rights:

(i) To reject the response whose performance is poor in awarded / ongoing works if any.

(ii) To give purchase preference to Public Sector Undertakings wherever applicable as per Government Policy / Guidelines

(iii) To extend purchase preference to Local MSEs (Micro & Small Enterprises) as per prevailing guidelines of RINL subject to submission of documents as stipulated in Detailed Terms & Conditions of NIT.

13 REVERSE E-AUCTION PROCESS:

In case RINL wishes to conduct Reverse auction, the same shall be communicated to all the technically qualified bidders at an appropriate time.

The Auction shall be conducted on SAP SRM LIVE AUCTION PLATFORM. All technically and commercially acceptable bidders would be required to participate in the reverse e-auction and quote from the start Price.

Bidders would be required to quote single price i.e price net of ITC on GST.

No separate User ID and Password is required for participating in Live Auction. User ID and Password used for Participating in E-Tendering to be used for Live Auction also.

(a) AUCTION TIME EXTENSION:

1. Throughout the Auction process, Bidders should keep in view the 'Time Remaining' that appears on the 'Live Auction cockpit' screen and submit their Bids well within the time that gets displayed therein.

2. Bidders to note that System calculates Auction End time during the Auto extension period as under:

If any of the bidder, submits a valid price, in the last "X" minutes, the system will extend the Auction End time to "Existing End Time + Y minutes". This will be done "N" number of times.

Here<><>

Remaining Time Trigger = X

Extension Period = Y

Number of Extensions = N

The Auction time extension is explained below with an example.

Example: Reverse Auction conducted with Auction parameters as:

AUCTION SCHEDULE: 11.00 AM to 12.00 noon, REMAINING TIME TRIGGER: 4 minutes and EXTENSION TIME: 5 minutes

The current Auction End time being 12:00 and in case a bid is submitted by any bidder after 11.56 AM. (in the 'Remaining Time Trigger' i.e., in the last 4 minutes) of the auction, the auction end time gets extended up to 12.05 PM (12:00 plus 5 Min.). Hence the new end time of the Auction is 12.05 PM. However, In case a bid is submitted prior to 11:56 i.e., before the 'Remaining time trigger', Auction shall not get extended and the same gets closed at 12:00.

Further, during the Auto extension period of the Auction, if a bid is submitted by any bidder after 12 .01 PM. (in the last 4 minutes) of the auction the auction end time gets extended up to 12.10 PM. (12:05 plus 5Minutes). In case the bid is submitted by any bidder from 12.00 to 12.01 PM, auction end time will not get extended because it is not within the period of REMAINING TIME TRIGGER of 4 minutes and Auction end time shall be 12:05.

Important Note :

Bidders have to ensure continuous internet connection during the live auction. If the bidders' internet connection gets disturbed, the details in the auction window will not get refreshed upon fresh bids in the auction. Bidders cannot see the latest bids submitted in the auction after the disconnection. If a bidder's Rank is 1 for any item, it will continue to remain as 1 in their screen even if other bids are submitted in the auction if internet connection is not proper/disturbed. Even the time remaining will continue to reduce. It is the responsibility of the bidder to maintain the uninterrupted internet connection during live auction. Since auto refresh is not possible during disconnection, click F5 button in your keyboard to refresh the auction screen . If proper internet connection exists Bidder's screen gets refreshed else if there is any connection problem

Bidder will get error screen/message upon pressing F5. If Bidder gets error screen, bidder should login again and come back to Auction cockpit after restoring proper internet connection to view the latest status in the auction cockpit. It is advisable to click on F5 frequently and every 20 seconds during extension time to manually refresh the live-auction cockpit screen. RINL does not accept any responsibility for issues related to non-participation due to internet connection problems at vendor's end.

14 GENERAL INSTRUCTIONS:

1) The documents submitted by the tenderers in respect of pre-qualification evaluation criteria are final and no further correspondence / clarifications / submissions in this regard shall be entertained.

2) Scope of work, Bill of Quantities (BOQ), Terms and Conditions, given in the tender documents(placed in the cFolder Publisher area) is final. On verification, at any time, whether the tenderer is successful or not, if any of the documents submitted by the tenderer including the documents downloaded from our website are found tampered /altered/ incomplete, they are liable for actions like rejection of the tender, cancellation and termination of the contract, debarring etc., as per the rules of the company.

3) It will be presumed that the tenderers have gone through the General Conditions, Special Conditions and Instructions to tenderer etc., of the contract available in the website which shall be binding on him / them.

4) The tenderer shall download the NIT documents etc (TENDER SCHEDULE) available in Tech RFx cFolder Publisher Area on the RINLs SRM Portal in totality and upload the same along with the Undertaking letter in Tech RFx cFolder.

5) The bidder shall be governed by the General Conditions of Contract of Supply which is available on VSPs website which can be freely accessed and downloaded.

6) Tenders submitted against the NIT / Tender shall not be returned in case the tender opening date is extended / postponed. Tenderers desirous to modify their offer / terms may submit their revised / supplementary offer(s) within the extended TOD.

7) VSP after opening of tender/bid document may seek in writing, documents/ clarifications which are necessary for evaluation of tender / bid document from the Tenderers/ bidders or issuing authority for confirmation of eligibility / pre-qualification stipulated in the NIT.

8) If it comes to the notice of VSP at any stage right from request for registration/ tender document that any of the certificates/documents submitted by applicant for registration or by bidders are found to be false/ false/ doctored, the party will be debarred from participation in all VSP tenders for a period of 05(FIVE) years including termination of contract, if awarded. Security Deposit if any will be forfeited. The contracting agency in such cases shall make good to VSP any loss or damage resulting from such termination. Contracts in operation anywhere in VSP will also be terminated with attendant fall outs like forfeiture Security Deposit, if any, and recovery of risk and cost charges etc., Decision of V.S.P Management will be final and binding.

9) The date of opening of the PQC and Tech RFx response shall be the date of tender opening.

10) Successful tenderer should be in a position to produce, after opening of the price bids, the Original Certificates in support of the attested copies of relevant documents submitted along with tender document. Failure to produce the original certificates at this stage in support of the attested copies of Electrical License/ any other documents etc. submitted earlier would result in disqualification and also liable for debarring from participation in VSP tenders.

11) RINL will not be responsible for any delay/ loss/ any website related problems in downloading the tender documents etc. RINL reserves the right to (A) Split and award the work to more than one agency, (B) Reject any or all the tenders or to accept any tender wholly or in part or drop the proposal of receiving tenders at any time without assigning any reason thereof.

12) The punitive action of debarring the agency for a period of 3(Three) years for the reasons mentioned in the Bid Security Declaration shall supersede the related clauses of Special Conditions of Contract (SCC) as given below:

(a) Withdrawal/modification of bid after tender opening and during the period of bid validity stipulated in the tender document or any extension thereof (Clause No.27 of SCC)

OR

(b) Having been notified of the acceptance of the Bid by RINL, during the period of bid validity, if the agency

(i) Fail or refuse to execute the Contract.

(or) (Clause No.31 of SCC)

(ii) Fail or refuse to furnish the security deposit, as stipulated in the Tender Document/ Work Order/ Letter of Acceptance/ Purchase Order Clause No.33 of SCC)

13) Planning and Designing in purview of Vulnerability Atlas of India:

a. Vulnerability Atlas of India (VAI) is a comprehensive document which provides existing hazard scenario of the entire country and presents the digitized State/UT-wise hazard, maps with respect to earthquakes, winds and floods for district-wise identification of vulnerable areas. It also includes additional digitized maps for thunderstorms, cyclones and landslides. The main purpose of this Atlas is its use for disaster preparedness and mitigation at policy planning and project formulation stage.

b. This Atlas is one of its kind single point source for the various stakeholders including policy makers/ administrators/ municipal commissioners/ urban managers/ engineers/ architects/ planners/public etc. to ascertain proneness of any city/location/site to multi-hazard which includes earthquakes, winds, floods, thunderstorms, cyclones and landslides. While project formulation, approvals and implementation of various urban housing, buildings and infrastructures schemes, this Atlas provides necessary information for risk analysis and hazard assessment.

c. The Vulnerability Atlas of India has been prepared by Building Materials and Technology Promotion Council under Ministry of Housing and Urban Affairs, Government of India and available at their website www.bmtpc.org.

d. It is mandatory for the bidders to refer Vulnerability Atlas of India for multi-hazard risk assessment and include the relevant hazard proneness specific to project location while planning and designing the project in terms of:

I. Seismic zone (II to V) for earthquakes

II. Wind velocity (Basic Wind Velocity: 55,50,47,44,39 and 33 m/s)

III. Area liable to floods and Probable max. surge height

IV. Thunderstorms history

V. Number of cyclonic storms/ severe cyclonic storms and max sustained wind specific to coastal region

VI. Landslides incidences with Annual rainfall normal

VII. District wise Probable Max. Precipitation

14) Bidders are required to check for any Corrigendum(s) issued till the bid submission date and time in www.vizagsteel.com or www.eprocure.gov.in

15 INSTRUCTIONS TO TENDERERS ON E-TENDERING/E-AUCTION:

For use of the RINL e-procurement (SRM) system and before submitting bid, a Vendor/Bidder should understand the e-tendering process by going through user manual which is available in our portal <https://srm.vizagsteel.com> and the NIT of related tender (RFx).

Vendor is responsible for all the necessary requirements including infrastructure in proper condition i.e. Computer, operating system and software platform (including browser), antivirus, network connectivity, internet services, uninterrupted power supply to computer or networking equipment etc., availability of correct user id and password etc so that the participation in the RFx and/or auction during e-procurement process is not affected. Any interruption at vendor's end due to non-availability of the above facilities will not be entertained as reason for review of the RFx and/or Auction participated or intended for participation by the Vendor.

Understanding the bidding method and entry of correct data (Entering Correct Price Information) during e-procurement process against the RFx and/or Auction is totally the responsibility of the Vendor. During e-procurement process (RFx stage and/or Auction) it will not be possible to explain the bidding process to the Vendor. Vendor should ensure all queries and know-how are completed with the help of user manuals and mock/trial auctions available in the SRM portal before the start of e-procurement (RFx or Auction) process to ensure smooth participation in RINL's e-tender/e-auction

1 INSTRUCTIONS TO TENDERERS:

1) Tender shall be submitted in the prescribed form issued by VSP in the RINL SRM Portal, Government Portal. The Tender documents issued are not transferable. Tender documents downloaded shall be submitted wholly without detaching any part.

2) The Tenderer shall agree to VSPs terms and conditions, specifications/ scope of work, etc., and quote their Total Amount in figures only. Tender shall be for the entire scope of work mentioned in the tender documents.

3) Price condition: Tenderers shall quote the price of the goods or services, excluding GST. Applicable GST shall be indicated against each item and will be paid extra on submission of tax invoice.

In case tenderer opted for composition scheme, GST will not be charged extra and the price quoted includes the GST applicable to composite scheme. Tenderers have to specify that they have opted for composition scheme and GST is included as applicable for composition.

Evaluation criteria:

1. In case of supply of goods or services on which RINL / VSP is eligible to avail GST input Tax Credit, evaluation of tender shall be on the basis of landed cost excluding GST.

2. In case of supply of goods or services on which the employer (RINL/VSP) is not eligible to avail GST input tax credit, the applicable GST payable by RINL/VSP (in case of unregistered taxable supplies) or GST to be charged by the registered taxable supplier as applicable, shall be added to the landed cost for evaluation purposes.

4) If by any reason the tender opening is postponed to any other date, the same will be placed in RINLs SRM Portal and in CPPP portal. Tenderers shall see the SRM Portal / CPPP portal regularly and keep themselves informed in this matter.

5) Before quoting, the tenderer shall necessarily contact the Engineer and fully understand the job, scope of work, unit of measurement, mode of measurement, scope of supply of materials by VSP if any, working conditions, shutdown arrangements, Labour deployment requirements, risk contingencies and such other factors which may affect their tender.

6) Tenders shall be kept open for acceptance for a period 4 (Four) MONTHS from the date of opening of tender.

7) Corrections/ amendments/ replacement to/ of the Deficient documents submitted, shall not be sought where there is evidence of Tampering/Unauthorized correction

2 EXEMPTIONS / PREFERENCES FOR MSES:

1) EXEMPTIONS / PREFERENCES FOR MICRO AND SMALL ENTERPRISES:

1.1 Micro and Small Enterprises (MSEs) registered under Udyam Registration shall be provided exemptions / preferences, under this clause, in respect of procurement of goods and services, produced and provided by them (irrespective of whether the service is provided within or outside their premises) through the present tender, subject to submission of proof of registration with Udyam Registration for goods & Services (irrespective of relevance of product category with tendered items) as on the Tender Opening Date (TOD).

Above benefits in terms of exemptions / preferences to MSEs shall not be applicable for the following:-

(i) Traders / Distributors / Sole Agent/ Joint Ventures / Consortium.

(ii) Works of "Works Contract" in nature.

Composite contracts, which includes not only supply and / or services but also various other activities and obligations under the contract shall be treated as 'Works Contract'.

1.2 Exemptions : MSE(s) shall be provided exemption from submission of Cost of Tender Documents (CTD) / Tender Processing Fee and Earnest Money Deposit (EMD).

Tender documents shall be downloaded by the tenderer from the websites notified by the company (such as www.vizagsteel.com, www://eprocure.gov.in)

1.3 Purchase Preference: MSE(s) shall be provided Purchase Preference as per the following:

- a) MSEs quoting price within the band of L1+15% shall also be allowed to supply a portion of requirement by bringing down their price to L1 price in a situation where L1 price is from someone other than an MSE and such MSEs shall be allowed to supply up to 25% of total tendered value.
- b) In case of more than one such MSE, the supply shall be shared proportionately (to tendered quantity)

The MSE(s) eligible for Purchase Preference shall be considered for award of contract, in the order of ranking, as below:

- i) MSE(s) owned by SC and ST entrepreneurs till the value of package(s) considered for award to MSE(s) (including the L1 tenderer, if MSE owned by SC and ST entrepreneurs) equals or exceeds 4% of the total value of work.
- ii) MSE(s) owned by women till the value of package(s) considered for award to MSE(s) (including the L1 tenderer, if MSE owned by women) equals or exceeds 3% of the total value of work.
- iii) Other MSE(s) eligible for Purchase Preference till the value of package(s) considered for award to MSEs (including the L1 tenderer, if MSE) equals or exceeds 25% of the total value of work.

The MSEs desirous of getting preference as per the above clauses (SC and ST owned MSEs or Women owned MSEs) are required to submit the proof of the same along with the tender documents.

The decision of RINL regarding the packages to be considered for award to MSE(s) shall be final and binding. The successful MSE(s) shall ensure that the registration is valid till end of the contract.

1.4 Payment of bills to the MSE's shall be made 'on or before the date agreed upon' as per the terms & conditions of the contract or within 45 days whichever is earlier, from the date of receipt of bill, complete in all respects, by the Engineer in-charge.

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

I. The Scope of Work in detail, is clearly brought out in the following points:

BOQ SI No.1 (310000681) refers to Clearing light jungle including shrubs , bushes, grass and plant sapplings of girth upto 300 mm measured at 1m height from ground level by mechanical means and removal of cut jungle upto a distance of 3 Km. out side the periphery of the the area cleared as per the direction of the Engineer and burning the Jungle at dumping place including all materials, tools, labour etc. complete.

BOQ SI No.2 (310000682) refers to Felling of trees of girth (Measured at a height of 1Mt above ground level) and cutting of the roots up to 300mm below ground level and transportation of cut trees up to a distance of 3Km treating the pit with chemical as specified in Special conditions of contract and filling up pits with earth and burning the cut trees aside including all materials, tools, labour etc., complete.:Beyond 300mm girth upto and including 600mm girth.

BOQ SI No.3 (310000683) refers to Felling of trees of girth (Measured at a height of 1Mt above ground level) and cutting of the roots up to 300mm below ground level and transportation of cut trees up to a distance of 3Km treating the pit with chemical as specified in Special conditions of contract and filling up pits with earth and burning the cut trees aside including all materials, tools, labour etc., complete.:Beyond 600mm girth upto and including 1200mm girth.

BOQ SI No.4 (310000684) refers to Earth work in excavation in all types of soils and highly disintegrated rock in foundations trenches or drains not exceeding 1.5 meters in width or 10 sq.m on plan dressing of sides, ramming of bottoms lift upto 1.5 meters including getting out the excavated soil as directed with in a lead of 50 meters including all materials, tools, labour etc. complete.

BOQ SI No. 5 (310000685) refers to Filling with available excavated earth excluding rock in trenches, plinth, sides of foundation etc. in layers not exceeding 20 cms in depth consolidating each deposited layer by ramming and watering, lead upto 50 m and lift upto 1.5 meters including all materials, tools, labour etc. complete (Final filled up volume is the basis for payment).

BOQ SI No. 6 (310000686) refers to Supplying and filling with clean river sand in trenches, sides of foundation, plinth, under floors etc.including watering, ramming, consolidating and dressing including all materials, tools,labour etc. complete as directed by Engineer In Charge.

BOQ SI No.7 (310000687) refers to Earth work in surface Excavation not exceeding 20 cm. In depth for road sides and berms including disposal of excavated earth upto a lead of 50m.

BOQ SI No.8 (310000688) refers to Excavating trenches of required width for pipes, cables etc. including excavation for sockets, dressing of sides, ramming of bottoms, depth upto 1.5M including getting out the excavated soil and then returning the soil as required in layers not exceeding 20cm in depth including consolidating each layer by rammimg, watering etc. and

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

disposing of surplus excavated soil as directed within a lead of 50M. a. Pipes, cables etc., not exceeding 80mm dia.

BOQ SI No.9 (310000689) refers to Excavating trenches of required width for pipes, cables etc. including excavation for sockets, dressing of sides, ramming of bottoms, depth upto 1.5M including getting out the excavated soil and then returning the soil as required in layers not exceeding 20cm in depth including consolidating each layer by rammimg, watering etc. and disposing of surplus excavated soil as directed within a lead of 50 M.b.Pipes, cables etc.exceeding 80mm dia but not exceeding 300mm dia.

BOQ SI No.10 (310000690) refers to Supplying and laying PCC of following grades as defined by IS 456 , machine mixed and mechanically vibrated at all heights and depths above and below plinth level all as per specification and directions of the Engineer excluding form work, including curing, all materials. tools, labour etc. complete. : concrete grade of 1:3:6 using 20mm and down graded aggregate.

BOQ SI No.11 (310000691) refers to Supplying and laying PCC of following grades as defined by IS 456 , machine mixed and mechanically vibrated at all heights and depths above and below plinth level all as per specification and directions of the Engineer excluding form work, including curing, all materials. tools, labour etc. complete. :concrete grade of 1:2:4 using 20mm and down graded aggregate.

BOQ SI No.12 (310000692) refers to Supplying and laying reinforced cement concrete of following grades as defined in IS 456 machine mixed and mechanically vibrated by using 20mm and down graded aggregate for all types of buildings , Industrial Structures, Equipment foundations , basements, pump houses, columns, raft slabs, footings, pedestals , tunnels, pipelines, man holes, thrust blocks etc. at all heights and depths above and below plinth level all as per drawings , specifications and direction of the engineer, excluding cost of form work and steel reinforcement including all materials tools, plant, labour etc. complete. : Concrete grade of 1:2:4

BOQ SI No.13 (310000693) refers to Supplying and laying reinforced cement concrete of following grades as defined in IS 456 machine mixed and mechanically vibrated by using 20mm and down graded aggregate for all types of buildings , Industrial Structures, Equipment foundations , basements, pump houses, columns, raft slabs, footings, pedestals , tunnels, pipelines, man holes, thrust blocks etc. at all heights and depths above and below plinth level all as per drawings , specifications and direction of the engineer, excluding cost of form work and steel reinforcement including all materials tools, plant, labour etc. complete. :Concrete grade of 1: 1¹/₂ : 3

BOQ SI No. 14 (310000694) refers to Casting, curing, hoisting and fixing in position precast RCC units of mix 1 : 2 : 4 (1 cement, 2 sand and 4 graded aggregate 20mm size) including all materials, tools, labour , centering , shuttering etc.but excluding cost of reinforcement (reinforcement steel shall be paid separately).

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.15 (310000695) refers to Providing and fixing form work in position with necessary centrings, bracings, proppings etc. and removing the same after the specified period for all types of form work for plain and reinforced cement concrete work in all types of buildings, structures, equipment foundation, column footings, tunnels, walls, slabs etc. all as per drawings, specifications, and directions of the Engineer all materials, tools and labour complete. :at all depths below plinth level Note: Plinth level means 1.2m above ground level for walls etc. where ever plinth level is not defined.

BOQ SI No. 16 (310000696) refers to Providing and fixing form work in position with necessary centrings, bracings, proppings etc. and removing the same after the specified period for all types of form work for plain and reinforced cement concrete work in all types of buildings, structures, equipment foundation, column footings, tunnels, walls, slabs etc. all as per drawings, specifications, and directions of the Engineer all materials, tools and labour complete. At all heights above plinth level Note: Plinth level means 1.2m above ground level for walls etc. where ever plinth level is not defined.

BOQ SI No.17 (310000697) refers to Supplying and mixing in cement concrete or cement mortar work,water proofing compound like CICO No. 1 or equivalent of approved quality in the proportion recommended by the manufacturer including all materials tools, labour complete.

BOQ SI No.18 (310000698) refers to Taking delivery from stores and placing in position , steel reinforcement including angle / pins provided for with approved welded joints or laps as required at all levels above and below plinth level for reinforced cement concrete and precast reinforced cement concrete works including straightening and decoiling, cutting, bending, cranking, tack welding as necessary all as per drawings specifications and directions of the Engineer including cost of binding wire, cover blocks, electrodes etc. all materials tools, plant, labour complete. (steel shall be supplied by VSP at free of cost.) : With M.S Rounds of all diametres

BOQ SI No.19 (310000699) refers to Taking delivery from stores and placing in position , steel reinforcement including angle / pins provided for with approved welded joints or laps as required at all levels above and below plinth level for reinforced cement concrete and precast reinforced cement concrete works including straightening and decoiling, cutting, bending, cranking, tack welding as necessary all as per drawings specifications and directions of the Engineer including cost of binding wire, cover blocks, electrodes etc. all materials tools, plant, labour complete. (steel shall be supplied by VSP at free of cost.) : With deformed bars of all diametres

BOQ SI No.20 (310000700) refers to Fabricating and erecting in position as per drawing,specification and instructions of the Engineer, MS inserts, anchor bolts, holding down bolts with nuts and washers, curb angles, channels pipes, pipe sleeves, plates, flanges, rungs, rails, steel duct boxes for ventilaters etc. for embedding in permanent Concrete work and M S plate covers for opening at all heights and depths above and below ground levels of buildings and equipment foundations etc. including all connected washers and adjustment in shuttering & reinforcement, cleaning of grease, paint etc. there from and welding wherever

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

necessary for fixing and removal of parts protruding from the concrete wherever necessary and grouting with neat cement sand slurry (1 : 2) ratio and finished smooth all materials, tools, labour etc. complete:Steel supplied by VSP free of cost.

BOQ SI No.21 (310000701) refers to Supplying & Providing Brick work with bricks of class 50 as specified with one or more bricks in 1 : 6 cement sand mortar including fair cutting, waste, bonding, plumbing, lining, levelling, flushing and racking joints, scaffolding and curing as directed, all materials, tools, labour etc. complete. : At all depths below plinth level

BOQ SI No.22 (310000702) refers to Supplying & Providing Brick work with bricks of class 50 as specified with one or more bricks in 1 : 6 cement sand mortar including fair cutting, waste, bonding, plumbing, lining, levelling, flushing and racking joints, scaffolding and curing as directed, all materials, tools, labour etc. completeb. : At all heights above plinth level

BOQ SI No.23 (310000703) refers to Providing half brick thick masonry with bricks of class 50 at all heights and depth above and below plinth in Cement mortar (1:4) including all materials, scaffolding, tools, labour etc. complete.

BOQ SI No.24 (310000704) refers to Providing random rubble masonry in cement mortar (1:6) as specified including fair cutting, waste, bonding, plumbing, lining, levelling, scaffolding and curing all materials, tools, labour etc. complete :at all depths below plinth

BOQ SI No.25 (310000705) refers to Providing random rubble masonry in cement mortar (1:6) as specified including fair cutting, waste, bonding, plumbing, lining, levelling, scaffolding and curing all materials, tools, labour etc. complete :at all heights above plinth

BOQ SI No.26 (310000706) refers to Demolishing concrete, brick masonry, stone masonry of all grades including disposal of material within 50 mts. Lead including all materials tools, labour etc. complete.a. Cement concrete

BOQ SI No.27 (310000707) refers to Demolishing concrete, brick masonry, stone masonry of all grades including disposal of material within 50 mts. Lead including all materials tools, labour etc. completeb. Brick Masonry

BOQ SI No.28 (310000708) refers to Demolishing concrete, brick masonry, stone masonry of all grades including disposal of material within 50 mts. Lead including all materials tools, labour etc. completec. Stone Masonry

BOQ SI No.29 (310000710) refers to Supplying and providing 15 mm thick cement plaster of mix 1:5 (1 cement : 5 fine sand) at all heights and depths above and below plinth level including all materials, tools and labour complete.

BOQ SI No.30 (310000711) refers to Repairs to the plaster in patches of area 2.5 Sq.m and under including cutting the patch in proper shape and preparing and plastering the surface of the walls with 20mm thick plaster in cement mortar 1 :4 (1 cement : 4 fine sand) including

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

disposal of rubbish to the dumping ground within 50 mtrs lead including all material, tools, labour complete.

BOQ SI No.31 (310000712) refers to Supplying and providing 40mm thick granolithick cement concrete flooring 1:2:4 (1cement : 2 sand : 4 graded aggregate of 10mm nominal size) finished with a floating coat of neat cement including all materials, curing, tools, labour complete.

BOQ SI No.32 (310000713) refers to Providing door sill 75 x 75 mm in cement concrete 1:2:4 using 10mm down graded stone aggregate including finishing with cement mortar (1:3) cutting the floor, cost and conveyance of all materials, tools, labour etc. complete.

BOQ SI No.33 (310000714) refers to Providing drip course 25mm wide and 16mm thick with Cement mortar 1 : 3 at the underside of the chajjas, slabs etc. at all levels as required complete as per specifications and/or as directed by the engineer including, cost and conveyance of all materials, tools, labour etc. complete.

BOQ SI No. 34 (310000715) refers to Providing white wash as specified to plastered surfaces or old surfaces at all heights and depth above and below plinth level including scaffolding all materials, tools, labour complete.(One Coat)

BOQ SI No. 35 (310000716) refers to Providing colour wash to give an even shade to plastered surfaces or old surfaces at all heights and depths above or below plinth level including scaffolding, materials, tools, labour Complete.

BOQ SI No.36 (310000718) refers to Providing white and colour wash two or more coats including cost and conveyance of all materials, tools, labour etc. complete for road kerbs.

BOQ SI No.37 (310000719) refers to Removing the damaged styles and rails of doors and windows shutter, damaged frames and replacing the same including fixing all materials, tools, labour etc. complete:Treated country wood

BOQ SI No. 38 (310000722) refers to Supplying and fixing 12 mm thick plywood sheets to doors / window shutter repairs including cost of all materials, tools, scaffolding labour etc. complete as per the direction of the Engineer.

BOQ SI No.39 (310000723) refers to Renewing glass panes with putty and nails wherever necessary at all heights including supplying and fixing sheet glass with puty/wooden fillets of approved quality as directed by the engineer including all materials, tools, labour etc. complete:Glass panes weighing approx.10.0kg/sq.mt (4mm thick)

BOQ SI No.40 (310000724) refers to Renewing glass panes with putty and nails wherever necessary at all heights including supplying and fixing sheet glass with puty/wooden fillets of approved quality as directed by the engineer including all materials, tools, labour etc. complete: Glass panes weighing approx.13.75 kg/Sq.Mt (5.5 thick)

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.41 (310000725) refers to Renewing glass panes with putty and nails wherever necessary at all heights including supplying and fixing sheet glass with putty/wooden fillets of approved quality as directed by the engineer including all materials, tools, labour etc. complete: Translucent glass 4 mm thick

BOQ SI No.42 (310000726) refers to Renewing glass panes with putty and nails wherever necessary at all heights including supplying and fixing sheet glass with putty/wooden fillets of approved quality as directed by the engineer including all materials, tools, labour etc. complete:Plastic sheet of 3 m.m. thick.

BOQ SI No.43 (310000727) refers to Removing and replacing, fitting with new fitting of MS oxidised for doors and windows including all materials, tools, labour etc. complete: Sliding door bolts of size 300 x 16mm with nuts and screws

BOQ SI No.44 (310000728) refers to Removing and replacing, fitting with new fitting of MS oxidised for doors and windows including all materials, tools, labour etc. complete: Tower bolts 250 x 10mm with screws

BOQ SI No.45 (310000729) refers to Removing and replacing, fitting with new fitting of MS oxidised for doors and windows including all materials, tools, labour etc. complete: Tower bolts 150 x 10mm with screws

BOQ SI No.46 (310000730) refers to Removing and replacing, fitting with new fitting of MS oxidised for doors and windows including all materials, tools, labour etc. complete: Tower bolts 100 x 10mm with screws

BOQ SI No.47 (310000731) refers to Removing and replacing, fitting with new fitting of MS oxidised for doors and windows including all materials, tools, labour etc. complete: Handle 125mm with screws

BOQ SI No.48 (310000732) refers to Removing and replacing, fitting with new fitting of MS oxidised for doors and windows including all materials, tools, labour etc. complete: Handle 100mm with screws

BOQ SI No.49 (310000733) refers to Removing and replacing, fitting with new fitting of MS oxidised for doors and windows including all materials, tools, labour etc. complete: MS oxidised casement peg stays for windows

BOQ SI No.50 (310000734) refers to Removing and replacing, fitting with new fitting of MS oxidised for doors and windows including all materials, tools, labour etc. complete: Steel window fastener MS oxidised with nuts

BOQ SI No. 51 (310000735) refers to Replacing and fixing approved make new anodised aluminium tower bolts and drop bolts with 100mm shoot to door shutter and frame with screws all materials, tools and labour complete:150mm long

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.52 (310000736) refers to Replacing and fixing approved make new anodised aluminium tower bolts and drop bolts with 100mm shoot to door shutter and frame with screws all materials, tools and labour complete:300mm long

BOQ SI No.53(310000737) refers to Replacing and fixing new aniodised alluminium door handles of approved make of length 125mm with anodised aluminium face plates and screws in doors all material, tools and labour complete

BOQ SI No.54 (310000738) refers to Providing and fixing alluminium sliding door bolts anodised transparent or dyed to required colour of shade with nuts and screws etc. including all materials tools and labour complete:250 x 16mm

BOQ SI No.55 (310000739) refers to Supplying and fixing hanging type anodized alluminium floor door stopper with necessary screws including all materials tools and labour complete.

BOQ SI No. 56 (310000740) refers to Replacing and fixing approved make anodised aluminium butt hinges including screws all materials tools and labour complete: 125mm x 63mm x 4mm thick

BOQ SI No.57 (310000741) refers to Replacing and fixing approved make anodised aluminium butt hinges including screws all materials tools and labour complete: 100mm x 63mm x 4mm thick

BOQ SI No.58 (310000742) refers to Providing and fixing hydraulic door closers of approved brand (everite or eqvt.) with all materials complete including removing the old one etc. complete as per specifications and / or as directed by the Engineer.

BOQ SI No.59 (310000743) refers to Taking out doors, windows and clerestory window shutters (steel or wood) including refixing the same with new hinges including all materials tools and labour complete (New hinges will be supplied by the Agency.): Rectification by removing

BOQ SI No.60 (310000744) refers to Taking out doors, windows and clerestory window shutters (steel or wood) including refixing the same with new hinges including all materials tools and labour complete (New hinges will be supplied by the Agency.): Rectification without removing from Frame.

BOQ SI No.61 (310000745) refers to Removing hydraulic door closer, refixing after rectification, setting right, replacing oil, spring etc. including cost and conveyance of materials, labour, tools etc. complete.

BOQ SI No.62 (310000746) refers to Removing, providing and fixing by welding new MS oxidised butt hinges for doors and windows, frames, all materials, tools, plant, labour etc. complete. (welding set shall be supplied by VSP at free of cost):100 x 58 x 1.9mm.

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.63 (310000747) refers to Removing, providing and fixing by welding new MS oxidised butt hinges for doors and windows, frames, all materials, tools, plant, labour etc. complete. (welding set shall be supplied by VSP at free of cost): 25 x 47 x 1.7mm.

BOQ SI No.64 (310000748) refers to Removing, providing and fixing wooden cleats of size 100 x 75 x 50mm to doors and windows frame by welding including removal of old cleats wherever necessary including painting to match the existing shade, all materials, tools and plant, labour etc. complete sal wood cleats with iron hinges and screws (welding set shall be supplied by VSP at free of cost).

BOQ SI No.65 (310000749) refers to Rectification of sliding bolts / tower bolts handles, hinges etc. of doors and windows with replacement of screws, bolts and nuts if required, all materials, tools, labour etc. complete.

BOQ SI No. 66 (310000750) refers to Renewal of old putty for glass panes with necessary clips or pins including all materials, tools and labour complete.

BOQ SI No. 67 (310000751) refers to Removing the hood / covers for all sizes of Rolling Shutters and inspecting springs, bearings, shaft, side guides, Gear box, Gear worm, Gear wheel and chain and wheel arrangement for electrically operated shutters, wicket gate etc. and greasing all the parts after necessary adjustment and tensioning the old springs for free operation and maintenance of shutter and refixing the hood/covers in position including cost of greases, oils etc., materials, necessary scaffoldings, , tools, tackles, labour etc. complete and as directed by Engineer at site: Pull and push type

BOQ SI No. 68 (310000752) refers to Providing and fixing holder bat clamps to the existing GI pipe line including cost of material and labour complete.

BOQ SI No. 69 (310000753) refers to Providing and fixing flyproof/ galvanised MS wire gauge to windows and doors with wire gauge of IS gauge designation 85G wire of dia 0.56mm including all materials, tools, and labour etc., complete

BOQ SI No. 70 (310000755) refers to Supplying and replacement of bitumen washers for 'J' or 'L' hooks of AC/CGI sheet roofing / walling including nuts if required, cost of all materials, tools and labour complete.

BOQ SI No.71 (310000756) refers to Taking delivery from Employer Store or any other supply point, cutting, placing, fixing and stiching in position at all heights above plinth level in operating units galvanised corrugated steel sheets/GP Sheets of all gazes for roofs, monitors, gable and side cladding,etc including bending to shape at the north light curves and providing, ridging and/or flushing with GP sheets as shown in drawings and fixing the above items with two coats of coal tar painting in lap years with necessary galvanised steel bolts, sheeting bolts, limpet or diamond washers, integral washers and square nuts (only net area laid excluding laps shall be measured). All as per drawings specifications, directions of Engineer-in-Charge with all materials, tools and labour complete (GC sheet/GP sheet/coal tar free issue from VSP). (J/L hooks, washers, nuts to be provided by Agency at his own cost).

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.72 (310000757) refers to Providing and fixing ball valve (brass) of approved quality for high or low pressure with plastic floats, removing the old ones including cost of all materials, tools and labour complete:15mm dia full set

BOQ SI No.73 (310000758) refers to Providing and fixing ball valve (brass) of approved quality for high or low pressure with plastic floats, removing the old ones including cost of all materials, tools and labour complete:25mm dia full set

BOQ SI No.74 (310000759) refers to Providing and fixing ball valve (brass) of approved quality for high or low pressure with plastic floats, removing the old ones including cost of all materials, tools and labour complete:15mm nominal bore only ball

BOQ SI No.75 (310000760) refers to Providing and fixing ball valve (brass) of approved quality for high or low pressure with plastic floats, removing the old ones including cost of all materials, tools and labour complete:25mm nominal bore only ball

BOQ SI No.76 (310000761) refers to Providing and fixing ball valve (brass) of approved quality for high or low pressure with plastic floats, removing the old ones including cost of all materials, tools and labour complete:15mm nominal bore only rod

BOQ SI No.77 (310000762) refers to Providing and fixing ball valve (brass) of approved quality for high or low pressure with plastic floats, removing the old ones including cost of all materials, tools and labour complete:25mm nominal bore only rod

BOQ SI No.78 (310000763) refers to Providing and fixing Bibcock / stopcock / pillar cock of approved quality with ISI mark including removing the old one, including all materials, tools and labour complete:Brass bibcock of 15mm dia

BOQ SI No.79 (310000764) refers to Providing and fixing Bibcock / stopcock / pillar cock of approved quality with ISI mark including removing the old one, including all materials, tools and labour complete: Brass stop cock of 15mm dia

BOQ SI No.80 (310000765) refers to Providing and fixing Bibcock / stopcock / pillar cock of approved quality with ISI mark including removing the old one, including all materials, tools and labour complete:CPBrass pillar cock of 15mm dia

BOQ SI No.81 (310000766) refers to Providing and fixing Bibcock / stopcock / pillar cock of approved quality with ISI mark including removing the old one, including all materials, tools and labour complete: CP Brass press type Bibcock of 15mm dia

BOQ SI No.82 (310000767) refers to Providing and fixing Bibcock / stopcock / pillar cock of approved quality with ISI mark including removing the old one, including all materials, tools and labour complete:cast iron bibcock of 15mm dia

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.83 (310000768) refers to Providing and fixing brass full way valve with CI wheel of approved quality (Screwed ends) including all materials, tools and labour complete: 20mm nominal bore

BOQ SI No.84 (310000769) refers to Providing and fixing brass full way valve with CI wheel of approved quality (Screwed ends) including all materials, tools and labour complete: 25mm nominal bore

BOQ SI No. 85 (310000770) refers to Providing and fixing brass full way valve with CI wheel of approved quality (Screwed ends) including all materials, tools and labour complete: 32mm nominal bore

BOQ SI No.86 (310000771) refers to Providing and fixing brass full way valve with CI wheel of approved quality (Screwed ends) including all materials, tools and labour complete: 40mm nominal bore

BOQ SI No.87 (310000772) refers to Providing and fixing brass full way valve with CI wheel of approved quality (Screwed ends) including all materials, tools and labour complete: 80mm nominal bore

BOQ SI No.88 (310000773) refers to Repairing the leakage of pipes, cistern etc. with M.seal to make them leak proof including all materials, tools labour complete.

BOQ SI No.89 (310000774) refers to Cutting, removing, cleaning the GI pipes from above or below ground level, rethreading the old GI pipes if required including supply and fixing of specials such as Nipple, bend etc. relaying the pipes and matching with the existing line, testing for any leakages, spun yarn, all materials, tools, labour etc. complete:15mm dia G.I.pipe

BOQ SI No.90 (310000775) refers to Cutting, removing, cleaning the GI pipes from above or below ground level, rethreading the old GI pipes if required including supply and fixing of specials such as Nipple, bend etc. relaying the pipes and matching with the existing line, testing for any leakages, spun yarn, all materials, tools, labour etc. complete:20mm dia G.I.pipe

BOQ SI No.91 (310000776) refers to Cutting, removing, cleaning the GI pipes from above or below ground level, rethreading the old GI pipes if required including supply and fixing of specials such as Nipple, bend etc. relaying the pipes and matching with the existing line, testing for any leakages, spun yarn, all materials, tools, labour etc. complete:25mm dia G.I.pipe

BOQ SI No.92 (310000777) refers to Cutting, removing, cleaning the GI pipes from above or below ground level, rethreading the old GI pipes if required including supply and fixing of specials such as Nipple, bend etc. relaying the pipes and matching with the existing line, testing for any leakages, spun yarn, all materials, tools, labour etc. complete:32mm dia G.I.pipe

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.93 (310000778) refers to Cutting, removing, cleaning the GI pipes from above or below ground level, rethreading the old GI pipes if required including supply and fixing of specials such as Nipple, bend etc. relaying the pipes and matching with the existing line, testing for any leakages, spun yarn, all materials, tools, labour etc. complete:40mm dia G.I.pipe

BOQ SI No.94 (310000779) refers to Cutting, removing, cleaning the GI pipes from above or below ground level, rethreading the old GI pipes if required including supply and fixing of specials such as Nipple, bend etc. relaying the pipes and matching with the existing line, testing for any leakages, spun yarn, all materials, tools, labour etc. complete:80mm dia G.I.pipe

BOQ SI No.95 (310000780) refers to Providing and fixing medium quality GI pipes with GI fittings and clamps including cutting and making good the walls where ever necessary etc. including cost all materials, tools, labour etc. complete:15mm dia G.I.Pipe

BOQ SI No.96 (310000781) refers to Providing and fixing medium quality GI pipes with GI fittings and clamps including cutting and making good the walls where ever necessary etc. including cost all materials, tools, labour etc. complete:20mm dia G.I.Pipe

BOQ SI No.97 (310000782) refers to Providing and fixing medium quality GI pipes with GI fittings and clamps including cutting and making good the walls where ever necessary etc. including cost all materials, tools, labour etc. complete:25mm dia G.I.Pipe

BOQ SI No.98 (310000783) refers to Providing and fixing medium quality GI pipes with GI fittings and clamps including cutting and making good the walls where ever necessary etc. including cost all materials, tools, labour etc. complete:32mm dia G.I.Pipe

BOQ SI No.99 (310000784) refers to Providing and fixing medium quality GI pipes with GI fittings and clamps including cutting and making good the walls where ever necessary etc. including cost all materials, tools, labour etc. complete:40mm dia G.I.Pipe

BOQ SI No.100 (310000785) refers to Providing and fixing medium quality GI pipes with GI fittings and clamps including cutting and making good the walls where ever necessary etc. including cost all materials, tools, labour etc. complete:80mm dia G.I.Pipe

BOQ SI No.101 (310000786) refers to Removing the lead & spun yarns etc. from the damaged lead joints and joining the CI pipes and specials with molten lead using the lead obtained from the damaged joints and adding the extra quantity of lead and yarn and as required, caulking and testing the joint for the leakage etc. including all materials, tools, labour etc. complete as per specification and or as directed by the engineer: for CI pipe line of 80mm to 250mm diameter

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.102 (310000787) refers to Removing, refixing after repairing the ball valve of 15 or 25mm diametre for proper functioning including cost of necessary washer, labour etc. complete.

BOQ SI No.103 (310000788) refers to Cleaning of valve chambers in water supply lines including tools, labour etc. complete and disposing the debris within a lead of 50 M.

BOQ SI No.104 (310000789) refers to Replacing tap washers by removing and refixing the tap including cost of washers, tools, labour etc. complete.

BOQ SI No.105 (310000790) refers to Providing and fixing in position 100mm dia CP brass shower rose with 15 mm inlet of approved quality including cost of all the materials and labour complete.

BOQ SI No.106 (310000791) refers to Providing and fixing white vitreous china water closet squatting pan (Indian type) Orissa pattern WC pan of size 580mm x 440 mm including cost of all materials, tools, plant & labour complete.

BOQ SI No.107 (310000792) refers to Providing and fixing white vitreous china pedestal type (European type/ wash down type) water closet including cost of all materials, tools, plant & labour complete.

BOQ SI No.108 (310000793) refers to Providing and fixing plastic seat with lid for pedestal type WC pan with CP brass hinges, rubber buffers etc. removing the old one including cost of all materials, tools, labour complete.

BOQ SI No.109 (310000794) refers to Providing and fixing white vitreous china wash basin Flat back of size 550mm x 400mm including making all connections but excluding the cost of fittings, including cost of materials, tools, plant & labour complete.

BOQ SI No.110 (310000795) refers to Providing and fixing white glazed vetrious kitchen sink of size 600mm x 450 mm x 250mm including making all connections but excluding cost of fittings including cost of all materials, tools, plant & labour complete.

BOQ SI No. 111 (310000796) refers to Providing and fixing 600x 450mm bevelled edge mirror of superior glass of approved quality with 6mm thick asbestos sheet back ground fixed to wooden cleats with CP brass screws and washers removing the old one including all materials tools, labour etc. complete.

BOQ SI No.112 (310000797) refers to Providing and fixing CP brass tower rail with CP brass brackets and guide rail fixed to wooden cleats with CP brass screws including cost of all materials, tools, labour etc complete:600 x 20mm size

BOQ SI No.113 (310000798) refers to Providing and fixing in position 10 ltrs capacity PVC low level flushing cistern of approved make with all fittings in toilet blocks including cost all materials, tools, labour etc. complete.

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.114 (310000800) refers to Providing and fixing 32mm dia CP brass waste for sink or wash basin of approved quality including cost of all materials, labour, tools etc. complete.

BOQ SI No.115 (310000801) refers to Providing and fixing 100mm dia grating for gully, floor or Nahani trap of approved quality including all materials, tools, labour etc. complete: Sand cast iron

BOQ SI No.116 (310000802) refers to Providing and fixing 100mm dia grating for gully, floor or Nahani trap of approved quality including all materials, tools, labour etc. complete: CP brass

BOQ SI No.117 (310000803) refers to Providing and fixing 32mm or 40mm PVC waste pipe for wash basin or sink or urinal of approved quality including all materials, tools, labour etc. complete.

BOQ SI No.118 (310000804) refers to Providing and fixing CI brackets of approved quality for wash basins, sinks etc.including all materials tools, labour etc. complete.

BOQ SI No.119 (310000805) refers to Supplying and laying glazed stone-ware pipes class "A" and jointing with stiff mixture of cement mortar in the proportion of 1 : 1 removing the old pipes including all materials tools and labour etc. complete:100mm dia pipe

BOQ SI No. 120 (310000806) refers to Supplying and laying glazed stone-ware pipes class "A" and jointing with stiff mixture of cement mortar in the proportion of 1 : 1 removing the old pipes including all materials tools and labour etc. complete: 150mm dia pipe

BOQ SI No.121 (310000807) refers to Supplying and laying glazed stone-ware pipes class "A" and jointing with stiff mixture of cement mortar in the proportion of 1 : 1 removing the old pipes including all materials tools and labour etc. complete: 200mm dia pipe

BOQ SI No.122 (310000808) refers to Rectification of flushing cisterns of all sizes by setting sizes by setting its parts for proper functioning of the same including replacement of washers etc. complete.

BOQ SI No. 123 (310000809) refers to Supplying and painting one coat with black anticorrosive bitumastic paint of approved brand and manufacture to give an even shade inside the MS overhead water tanks including all materials, tools and labour complete.

BOQ SI No.124 (310000810) refers to Emptying cleaning, brooming and disinfecting with bleaching powder the over head tanks over the buildings / OHT / OGST as per the directions of the Engineer including cost of all materials, tools and labour complete: Over Public Buildings

BOQ SI No. 125 (310000811) refers to Emptying cleaning, brooming and disinfecting with bleaching powder the over head tanks over the buildings / OHT / OGST as per the directions

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

of the Engineer including cost of all materials, tools and labour complete: Over the Residential Buildings

BOQ SI No.126 (310000812) refers to Emptying cleaning, brooming and disinfecting with bleaching powder the over head tanks over the buildings / OHT / OGST as per the directions of the Engineer including cost of all materials, tools and labour complete: Overhead water tank (Approx. Cap 175 Cum)

BOQ SI No.127 (310000813) refers to Emptying cleaning, brooming and disinfecting with bleaching powder the over head tanks over the buildings / OHT / OGST as per the directions of the Engineer including cost of all materials, tools and labour complete: Hill top water tank

BOQ SI No.128 (310000814) refers to Emptying cleaning, brooming and disinfecting with bleaching powder the over head tanks over the buildings / OHT / OGST as per the directions of the Engineer including cost of all materials, tools and labour complete: On ground water tanks'(Approx. Cap. 400 Cum).

BOQ SI No.129 (310000815) refers to Emptying cleaning, brooming and disinfecting with bleaching powder the over head tanks over the buildings / OHT / OGST as per the directions of the Engineer including cost of all materials, tools and labour complete: On Ground water tank capacity 280 cu.m.

BOQ SI No.130 (310000816) refers to Providing, fixing PVC Connection 15mm x 450mm with both side Brass check nuts and washers of approved quality including all tools, materials, labour, etc., complete.

BOQ SI No.131 (310000817) refers to Providing and fixing Lead valveless Syphon (Wonder Flush) unit in place of old one including cost and conveyance of all tools, materials, labour etc., complete.

BOQ SI No.132 (310000818) refers to Providing and fixing Sand Cast Iron soil waste and vent pipe etc., as per ISI including lead caulking joints etc., and including cost of all materials, tools, plant and labour etc., complete - For 100mm dia

BOQ SI No.133 (310000819) refers to Mechanical transport of building material, debris, garden wasteq etc. including collection of the same from different areas of Township & Plant and other scattered areas, along the drains, loading and unloading and disposal upto 2 KM lead as directed by the Engineer (Volume of carriage will be the basis for payment). **Note:** *40% shall be deducted from measured volume towards voids for purpose of payment).*

BOQ SI No.134 (310000820) refers to Rectification of barbed wire fencing by straightening the existing loose barbed wire and fixing properly in position to the existing parts by tying with GI wire if necessary including cost of GI wire, tools, labour etc. complete.

BOQ SI No.135 (310000821) refers to Supplying and fixing in position G I barbed wire 12 gauge 2 ply 4 pin thick set of barbs (100 Rmt. weighs 9.38 Kg. minimum) fitted and fixing

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

with GI binding wire in tight position to MS angle post or Concrete fencing post including all materials, tools and labour complete.

BOQ SI No.136 (310000822) refers to Excavation of snake pits/ant hills upto 0.60 meters depth or as required from the ground level including disposal of the debris upto a lead of 100m as directed by the Engineer including all tools and labour complete: Small (height upto 0.5 Mtrs.) from ground level

BOQ SI No. 137 (310000823) refers to Excavation of snake pits/ant hills upto 0.60 meters depth or as required from the ground level including disposal of the debris upto a lead of 100m as directed by the Engineer including all tools and labour complete:Big (Height more than 0.5Mtrs from ground level).

BOQ SI No.138 (310000824) refers to Cutting and trimming of branches of trees obstructing the electrical overhead lines as required including the disposal of cut material upto a distance of 50mt complete as directed by the Engineer (unit shall be each tree)

BOQ SI No.139 (310000825) refers to Cleaning the road surface with wire brush/brooms as directed by the Engineer including all tools and labour complete.

BOQ SI No.140 (310000826) refers to Cleaning the existing drains, removal of silt, debris etc. and disposing the same within a lead of 3 KM as directed by the Engineer including all tools and labour complete: : Drains upto 0.5Mt bottom width.

BOQ SI No.141 (310000827) refers to Cleaning the existing drains, removal of silt, debris etc. and disposing the same within a lead of 3 KM as directed by the Engineer including all tools and labour complete: Drains above 0.5 Mt andbelow 1.00 Mt bottom width

BOQ SI No.142 (310000828) refers to Cleaning the existing drains, removal of silt, debris etc. and disposing the same within a lead of 3 KM as directed by the Engineer including all tools and labour complete: for drains above one metre and below 2.5 mt. bottom width

BOQ SI No.143 (310000829) refers to Providing and fixing of Anchor bolts by welding to the existing reinforcement to the correct level and alignment including cost and conveyance of all materials, tools, labour, etc., complete. (Anchor will be issued at free of cost for Wagon Hauling track.)

BOQ SI No.144 (310000830) refers to Removing of chockage/blockage in fecal/sewer lines of all diametres as directed by the Engineer with all tools and labour complete. Unit of measurement is from man hole to man hole or toilet block to manhole considered as one number (any damage caused to the existing system should be made good by the Agency at his own cost)

BOQ SI No. 145 (310000831) refers to Cleaning of man holes of all sizes and depths including removal of rubbish/night soil disposal of the same as directed by the engineer including all tools and labour complete (transportation of above material will be at the cost of Agency)

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.146 (310000832) refers to Cleaning of chockage in gully traps, floor traps/wash basin pipe/sink pipe etc including all tools and labour complete

BOQ SI No.147 (310000833) refers to Disposal of dead animals like cow / buffalo / ox / donkey / pig/ etc removal from VSP area to the far-off place as directed by the Engineer: Small creatures like rats, squirrels,etc

BOQ SI No.148 (310000834) refers to Disposal of dead animals like cow / buffalo / ox / donkey / pig etc removal from VSP area to the far-off place as directed by the Engineer: Small animals like dogs/cats, foxes and rabbits, etc

BOQ SI No.149 (310000835) refers to Disposal of dead animals like cow / buffalo / ox / donkey / pig etc removal from VSP area to the far-off place as directed by the Engineer: Big animals like cow, ox, buffalo

BOQ SI No.150 (310000836) refers to Providing fogging with fogging machine inside the township area and plant area including cost of materials like Malathion, Kerosin,Petrol, batteries, all materials, tools , tackles etc., complete

BOQ SI No.151 (310000837) refers to Cleaning and removing of roof dust and other accumulated materials, including heaps over RCC flat roofs of different building of the plant at all heights including lowering down to a suitable place with in 50 mts etc., complete.

BOQ SI No.152 (310001067) refers to Supplying and placing cement grout of grade of 1:1.5:3 as specified by using 10mm down graded stone aggregate in column bases, machine bases, foundation top holes, pockets,etc., mixing, placing compacting and curing all materials, tools and labour complete.

BOQ SI No.153 (310001068) refers to Flush pointing with cement mortar (1:3) mixed with 2% integral water proofing compound by weight for flat tile bricks including racking joints and the disposal of rubbish within a lead of 50mts. Including cost and conveyance of all tools, materials, labour etc. complete

BOQ SI No.154 (310001069) refers to supplying and laying glazed tiles of any colour of minimum thickness 5.5mm in flooring/skirting laid on a bed of 10mm thick cement mortar 1:3 (1cement, 3coarse sand) finshed with flush pointed in white cement at all heights and descents including all materials,tools and labour complete.

BOQ SI No.155 (310001070) refers to Providing floor painting with synthetic enamel paint of two coats approved quality to give even shade including cost and conveyance of all materials, tools, labour etc., complete

BOQ SI No.156 (310001071) refers to Lettering with synthetic enamel paint on all boards and curved surfaces at all heights and depths above and below ground level including all scaffoldings, tools, paint, labour, brushes etc. complete.

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.157 (310001073) refers to Providing and fixing close fitting adjustable ridges in AC sheet roofing including all materials,tools and labour complete.

BOQ SI No. 158 (310001074) refers to Closing patches in GI & AC sheets roofing and cladding work at all heights above plinth level with with bitumen felt of 100mmX100mm or as specified by the Engineer including necessary scaffolding all materials,tools, and labour complete.

BOQ SI No.159 (310001075) refers to Repairs to MS water pipeline of 150mm diameter by cutting and removing the damaged pipes and replacing the same with new pipe including cutting, fabrication of bends if necessary and welding to match the existing line either below ground or above ground including cost and conveyance of all materials, tools, plant, labour etc, complete and damaged pipes is to be returned to stores.(additional pipe and welding set shall be issued departmentally at free of cost and transportation has to be arranged by the Agency).

BOQ SI No.160 (310001076) refers to Providing and laying cement concrete 1:5:10 using 40mm metal around SW pipes including all materials, curing, tools, and labour complete: 150mm dia pipe

BOQ SI No.161 (310001077) refers to Providing and laying cement concrete 1:5:10 using 40mm metal around SW pipes including all materials, curing, tools, and labour complete: 100mm dia pipe

BOQ SI No.162 (310001078) refers to Providing and laying cement concrete 1:5:10 using 40mm metal around SW pipes including all materials, curing, tools, and labour complete: 200mm dia pipe

BOQ SI No.163 (310001079) refers to Cleaning of quarters of all types including toilets, washing with water,removal of cobwebs, dusting the walls, doors and windows claeing the doors and windows, claeing the surroundings upto a distance of 5Mts approx. all round the quarter etc., including all tools and labour complete.

BOQ SI No.164 (310001080) refers to Supplying and stacking of moorum at site including transporting to different sites etc. complete. (Moorum measured in stacks will be reduced by 20% for payment).

BOQ SI No.165 (310001081) refers to Providing and fixing polished cuddapah slab kichen sink of size 550X400X150mm including making all connections excluding cost of fittings, removing the old one, including cost of all materials, tools and labour complete

BOQ SI No.166 (310001083) refers to Providing and laying non-pressure NP-2 class(light duty) RCC pipes with collars jointed with stiff mixture of cement mortar in the proportion of 1:2 (1cement 2 Fine sand) including all materials, tools, plant and labour complete: 300mm dia RCC pipes

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.167 (310004310) refers to Supplying and fixing GI chain link fencing 100x100mm mesh with nominal wire dia as 4.0 mm alongwith stay wire including providing and fixing clips, bolts, nuts, washers eye hooks, "U" hooks, ribs, binding wire etc., and removing existing fencing as required including all material, labour, tools, tackles, etc., complete as per specifications and/or as directed by the Engineer

BOQ SI No. 168 (310004311) refers to Daily Door to Door collection of Garbage in Township i.e. bio degradable & non bio degradable wastes from all quarters/dwelling units & areas excluding Sundays & Holidays and unloading of garbage upto a lead of 2Km as directed by Engineer (rate includes cost of trolley with 200 lt. capacity drum/barrel (Drum/barrel provided by VSP free of cost) , one unskilled manpower etc. complete. Trolley with a provision for carrying 200 lit. capacity barrel/drum

BOQ SI No.169 (310004312) refers to Providing Post-construction Anti-termite treatment by drilling as per IS:6313 (Part-III) - 2001 for existing buildings as per, but not limited to IS:6313 (Part-III) 2001 with chemical Emulsion, Chlorophyriphos (Emulsifiable concentrate 20 EC of IS: 8944-1974)/ Lindane 20 EC (IS:632) by weight 1% including treatment of soil along the plinth (outside) and below floor (inside) irrespective of cracks along walls, treatment of masonry from both sides of walls at plinth level, treatment of wood work by drilling holes and squirting chemical emulsion as specified and making good drilled holes with cement mortar 1:4 for masonry/ concrete and putty for wood work including all materials, labour, tools, tackles, equipments etc., complete as per specifications and/ or as directed by the Engineer.

BOQ SI No.170 (310004313) refers to Supply of Water tanker filled with water (min. capacity 3000 lit.) from VSP Supply point and transportation/spreading/sprinkling of water to anywhere inside the plant/mine as directed by Engineer including cost of labour, tools, tanker , driver etc. complete

BOQ SI No.171 (310004321) refers to Providing, skirting and dado with 5mm thick white glazed tiles over 12mm thick plaster in CM 1:3 (1 cement : 3 fine sand) wherever required and finishing with flush pointing in white cement (to be procured by Agency) including all material, labour, tools, tackles etc. complete as per specifications and/or as directed by the Engineer.

BOQ SI No.172 (310000709) refers to Demolishing concrete, brick masonry, stone masonry of all grades including disposal of material within 50 mts. Lead including all materials tools, labour etc. completed. Brick tiles on roof slab

BOQ SI No.173 (910002211) refers to sply.and grouting with non-shrink grouting compound like conbextra gp-2 or any other approved grouting compound for bolts grouting as per manufacturers' instructions and making good of the surfaces including all materials,tools,curing and labour complete.

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

BOQ SI No.174 (910002212) refers to sply.and mixing 10 mm or 12.5 mm size stone aggregate to the grouting compounds as per the manufacturer's specification including cost of materials,tools and labour complete. (7.5 % voids will be deducted from the loose volume).

- II. The scope of work under this contract is to provide services as given below:
1. Civil works of quarters and public Buildings including repairs, road repairs and maintenance
 2. Miscellaneous civil, plumbing, water supply, sanitary, sewage services maintenance jobs for attending the day-to-day complaints received from the occupants/users of the building
 3. The quantities indicated in the BOQs are approximate and are for the guidance of the tenderer to the nature of the items of works to be executed under this contract.
 4. The actual execution of the various items of works shall be as per the requirements during the period of contract
 5. The items and rates will cover the complete work referred to be implied in the items and are to be carried out as detailed in this specifications and additional specifications and include all subsidiary and enabling operations required whether or not enumerated in the items or in the Scope of Work / Preamble or specifications and additional specifications.
 6. The rates for items shall be completed in all respects and shall include the cost of all materials labour, tools, tackles, plant & equipment, scaffoldings, safety appliances, lead, lift, etc. unless otherwise specified elsewhere.
 7. Unless otherwise specified most of the items are involving replacement and the rate shall be inclusive of cost of removal of handlings and fixtures etc. and handing them over to civil maintenance stores.
 8. The Agency shall get the materials intended to be incorporated in the works approved before using them on the work. If so directed by the engineer, the Agency shall get the materials tested and submit the transport to the Engineers. During the execution of the work any material used by the Agency not found as per the approved sample, the same shall have to be replaced by the Agency at his own cost.
 9. The rates for items of works of painting, white washing shall include for cleaning of the old surface etc. before applying primer / painting, white washing.

SCOPE OF WORK

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

The rates quoted shall also include for cleaning of the strains from the floors / walls after completion of paintings / white washing.

10. Mode of measurements for all the items in the Bill of quantities shall be as per IS:1200 of relevant Sections. All measurements will be in metric systems.
11. No changes in the unit rate will be admissible for any variation in quantities. Unless otherwise specified. All the items of the Bill of Quantities are to be executed as per the description of the items, relevant IS code, specifications and / or as directed by the Engineer.
12. Plinth level means 1.2 meter above Ground level for walls etc.

TERMS & CONDITIONS

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

1. The Agency shall follow all safety procedure of VSP and ensure use of necessary safety appliances by his workmen at site.
2. All the maintenance works/jobs shall be carried out by the Agency as per the work permit procedure (Permit to work) of VSP. Agency has to obtain 'Work Permission / Permit to Work' from the respective Shift-In-Charges, in writing, for all the maintenance/breakdown jobs and other related jobs carried out at site. This must be adhered to Strictly. Any unsafe practice being noticed at site shall be brought to the notice of 'Engineer' for immediate rectification.
3. The Agency is responsible for taking all safety precautions including fire safety measures, working at height etc., and for providing all necessary safety appliances to all their employees/ workmen working at site. The Agency should provide all safety belts and other tools &tackles tested according to safety norms prescribed.
4. The Agency shall arrange all the tools, tackles, welding machines, and instruments etc., required for maintenance/repair and Agency has to obtain inspection clearance of 'Engineer' for the works before utilizing the tools, tackles, welding machines, and instruments etc., at site.
5. Safety Clause: The Agency shall ensure usage of ISI marked regulators, hoses, nozzles, cutting torches, welding holders and cables for cutting and welding works wherever required. This must be adhered to Strictly. This is in addition to the Safety clauses mentioned in Special Conditions of Contract (SCC).
6. Compliance of provisions relating to the Mines Act – 1952:
 - a) The Agency shall follow the provisions of Mines Act 1952 and all rules & regulations made there under from time to time as applicable and shall indemnify the employer against all claims of compensations under the provisions of the act in respect of workmen employed by the Agency in carrying out the work against all costs, expenses and penalties that may be incurred by the employer in connection therewith.
 - b) The agency has to carry out Initial / Periodical Medical Examination for all the workers engaged by them as per stipulations of Mines Act and as directed by the Engineer. The agency shall also submit Medical examination reports / certificates of the workers, in the prescribed format to the Engineer before commencement of work
7. All spare parts, consumables, Electricity, water, gas welding equipment etc will be provided by VSP free of cost as per the requirement. All special tools and tackles are to be arranged by the Agency for proper performance and monitoring of the system.
8. Gate passes shall be issued to the Agency's personnel as per VSP procedures whereas Personnel Protective Equipment (PPEs) to all the workmen shall be arranged by the Agency.

Contd....2

TERMS & CONDITIONS

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

(2)

9. All the workers engaged by the Agency must wear PPEs (Personal Protection Equipments like Helmets, Shoes, Gloves, Welding Goggles etc) and same shall be provided by the Agency. If Agency is unable to provide, the same will be supplied by VSP and the cost of the the supplied items will be recovered from the running bills of the Agency.
10. Payment of welfare allowance (SMA & ASMA) : Applicable; Welfare Allowance (SMA & ASMA) shall be payable to contract labours deployed in site in Highly Skilled, Skilled, Semiskilled and Unskilled categories including supervisors **Other than** Service Engineers / Engineers / Agency's representative / Administrative staffs of Agency's eg., HR Officers, Office Staff, Regular employees of Contracting Agency, Drivers deployed for their staff cars / envisaged temporary contract labour on onetime basis / additional contract labour engaged on onetime basis (during execution).

11. PENALTIES / RECOVERIES :

“On inspection, for non-compliance or violation of 'Terms and Conditions' of the contract and for any deficiency in Providing services by the Agency as per the 'Scope of the Work', a non-refundable recovery of Rs.500/- on each such occasion will be made from the outstanding bill payable to the Agency. Decision of the ‘Engineer’ in this regard shall be final and binding. No claim whatsoever on this account will be entertained further”.

12. The rate is exclusive of GST. GST amount shall be reimbursed on production of relevant documents.

13. GST Clause

The scope of materials supply and consumables supply in the present proposal are as follows.

- a) Materials to be supplied by VSP : Reinforcement Steel and Structural Steel
- b) Consumables to be supplied by VSP : Nil
- c) Materials to be supplied by Agency: All materials required as per BOQ items
- d) Consumables to be supplied by Agency: All consumables required as per BOQ items.

The deduction of GST shall be done as per the rules prevailing from time to time.

ADDITIONAL SPECIAL CONDITIONS

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

1. The Agency or his representative shall report to the VSP Maintenance Office daily and should be continuously in contact with Engineer for taking instructions.
2. The Agency shall get the paints shade and brand approved by the Engineer prior to procurement. Use of materials other than approved shall lead to action in terms of contract. The Agency shall produce the documentary proof of purchase of the approved materials as and when required by the Engineer.
3. The Agency shall make arrangements to collect the required water from nearby taps with the permission of residents. Meddling with or removing covers is highly objectionable.
4. Agency and his workmen shall take care to see that no damages are caused to the belongings of the residents or VSP property.
5. Agency shall arrange proper cleaning of the floors, doors and windows, etc. after completion of paintings jobs and the rate quoted shall include all such jobs.
6. Any damage caused to the properties of residents or VSP will be made good by the Agency free of cost.
7. The Agency shall invariably obtain acknowledgement by the resident in the prescribed register duly certified by the Supervisor immediately on completion of the job. However, payment will be made for actual work carried out and measured as per relevant BOQ items.
8. The Agency or his authorized representative shall visit the Office of the Engineer every day in the morning and report the status of the works under execution and receive further instructions and job orders.
9. Individual work orders / instructions / notices as and when issued shall be collected by the Agency at the Maintenance Office of VSP. In case Agency or his representative fails to attend the VSP Maintenance Office, the said Work Orders / Instructions / Notices, etc. will be kept in the Notice Board of the VSP Maintenance Office and the same shall be deemed to have been served on the Agency.
10. Agency has to account for VSP supplied materials as per standard procedure of Visakhapatnam Steel Plant.
11. **Defect Liability Period** : Six Months from the date of completion as certified by the Engineer-in-charge.
12. The Agency shall indemnify the Employer against any loss / liability that may be incurred by him on account of any failure on the part of the Agency for timely rectification of the defects pointed out within the defect liability period.

ADDITIONAL SPECIAL CONDITIONS

Name of the Work: Annual Repairs and day to day Maintenance works to Roads, Buildings, Water Supply, Sanitary and Sewerage Lines in Township and Mines of Madharam Dolomite Mines

13. The containers of all materials supplied free by the Employer (if any) need not be returned by the Agency . The tendered rates shall take into account the realizable values.

14. The agency will deploy at least One Experienced Supervisor (With minimum 3 years experience in Civil Works) or Civil Diploma Holder all the time throughout the duration of the contract. He shall be able to give commitment regarding deployment of men and machinery indicating source of deployment and will further commit that they will be available at site all the time as per requirement.

15. The Agency has to submit the Royalty Clearance Certificate from Telengana state Government for the minor minerals consumed for the work. If the Agency fails to submit the MRC (Mineral Revenue Clearance), VSP shall recover normal seigniorage fee with applicable penalty as fixed by the Government from time to time from the Bills of the Agency.

16. Daily labour report is to be submitted by the agency

17. Water proofing cement paint shall be procured from authorized stockiest of manufacturers. Purchase documents along with Batch Nos. and empties shall be surrendered to VSP for accounting / reconciliation.

18. Excavated earth, debris, removed material from drains, dismantled materials etc., should not be kept within 15 m from the edge of excavation / drain / building. No payment will be released if found within 15 m.

19. The Agency will be allowed to prepare and use concrete by volumetric mix as per IS: 456 latest editions.

20. All brought out items will be either ISI marked or as per approved list attached as Annexure I.

21. The scope of materials supply and consumable supply in the present proposal are as follows:

Reinforcement steel and structural steel as mentioned in the item description will be issued free of cost by the employer at the Employers store (s) / yard . The quantity will be limited to the total quantity required as per contract plus permissible wastages of not more than 2% . The reinforcement bars of lengths below 300 mm will be treated as scrap. All such scraps and only damaged pieces will be deemed to have been covered under the permissible wastage. For any shortage in accounting the material issued to the Agency by the Employer, recovery for the unaccounted material shall be made at the rate of 150% of the prevailing market rate at the time of accounting.

SPECIAL CONDITIONS OF CONTRACT

- 1) GENERAL : The special conditions of the contract (SCC) are complementary to and shall be read in conjunction with General Conditions of Contract (GCC) of VSP for works contracts. Scope of work, Bill of Quantities and other documents form part of the Tender Documents. In case of any conflict of meaning between SCC & GCC, provisions of SCC shall over ride the Provisions of GCC.
- 2) Visakhapatnam Steel Plant reserves the right to accept or reject the lowest or any other tender without assigning any reason and the work may be awarded to one of the Tenderers or to more than one tenderer.
- 3) The contract shall be treated as having been entered into from the date of issue of the letter of intent/work order to the successful tenderer, unless otherwise specified.
- 4) WATER, POWER AND COMPRESSED AIR: Unless otherwise specified to the contrary in the tender schedule, the contractor is entitled to use in the work such supplies of water, power and compressed air (Basing on availability) from VSP's sources from approved tapping points, free of cost. The contractor shall make his own arrangement for drawing the same to the work spot.
- 5) **The successful tenderer shall produce GST Registration Certificate under GST Act, before signing the Work Order / Letter of Acceptance and submit a copy of the same. If the agency is unregistered / composition scheme declaration shall be submitted.**
- 6) Immediately on receipt of work order, the successful tenderer shall obtain and submit the following documents to the Engineer with a copy to ZPE/Manager (Pers)/CLC before start of work.
 - a(i) **ESI registration certificate** with the contractor's Code no. covering all the workmen under ESI Scheme, which shall be effective from the date of start of contract and cover for the entire period of contract including extended period/defect liability period, if any.
 - a(ii) **Group Personal Accidental Insurance (GPAI)** : Insurance policy for payment of ex-gratia amount of Rs.11,00,000/- (Rupees Eleven lakhs only) per head in case of fatal accidents while on duty, to the contract labour engaged by him in addition to the coverage under ESI Scheme / Workmen Compensation Insurance Policy whichever is applicable. As and when a fatal accident takes place while on duty along with the benefits under the ESI Scheme / Workmen Compensation, whichever is applicable, the contractor is required to pay the ex-gratia amount within 30 (Thirty) days from the date of accident to the legal heir of the deceased. In case of any delay in paying the ex-gratia amount as above, the Employer has the right to pay such amount directly to the legal heir of the deceased and recover the same from the contractor's running / future bills. This insurance policy is to be taken by the contractor over and above the provisions specified under Clause No. 6.13 (Third Party) and 6.14 (ESI Act) of the General Conditions of Contract
Agencies are required to take the Group Personal Accidental Insurance (GPAI) policy for payment of ex-gratia from the RINL approved Insurance Service Provider as per the details given in the website as mentioned below :
www.vizagsteel.com----->Tenders----->Works Contracts ----->Standard Documents ---->RINL approved GPAI Service Provider Details.
 - a(iii) **Copy of the policy for third party insurance** as stipulated in Clause 6.13 of the GCC.
 - b) **Labour License obtained from Assistant Labour Commissioner (Central), Visakhapatnam.**
 - c) **PF Registration Certificate issued by PF Authorities**
 - d) **Safety clearance** from Safety Engineering Department of VSP.
- 7) The contractor shall submit wage records, work commencement/completion certificate etc. and obtain necessary clearance from Contract Labour Cell of VSP for bills clearance.
- 8) The contractor shall ensure strict compliance with provisions of the Employee's Provident Fund Act, 1952 and the scheme framed there under in so far as they are applicable to their establishment and agencies engaged by them. The contractor is also required to indemnify the employer against any loss or claim or penalties or damages whatsoever resulting out of non-compliance on the part of the contractor with the provisions of aforesaid act and the schemes framed there under. A copy of the provident fund membership certificate/PF CODE number shall be submitted by the contractor.
- 9) The contractor shall follow the provisions of Indian Factories Act and all rules made there under from time to time as applicable and shall indemnify the employer against all claims of compensations under the provisions of the act in respect of workmen employed by the contractor in carrying out the work against all costs, expenses and penalties that may be incurred by the employer in connection therewith.

- 10)
 - a) Total amount quoted shall be inclusive of all taxes, levies, duties, royalties, overheads and the like but excluding GST prevailing as on the date of submission of bids.
 - b) During the operation of the contract if any new taxes/duties/levies etc are imposed or rates undergo changes, as notified by the Government and become applicable to the subject works, the same shall be reimbursed by VSP on production of documentary evidence in respect of the payment of the same. Similarly benefits accruing to agency on account of withdrawal/reduction in any existing taxes and duties shall be passed on to VSP.
 - c) Supplier of Services / Goods shall comply with the GST provision as prescribed. In case of failure to comply with the GST provision by the Supplier thereby RINL could not obtain GST-ITC or ITC is reversed with interest at a later date the equivalent amount of ITC lost including interest paid, if any, to GST Authorities shall be recovered from the immediate payment due to the supplier of service.
 - d) The prices are exclusive of GST. RINL-VSP will pay GST as applicable on submission of Tax Invoices in accordance with Rule 46 of GST Rule 2017.
The contractor will be paid GST by RINL-VSP along with monthly RA bills. The contractor will, in turn, submit the documentary evidence in support of payment of GST of each month along with subsequent month RA Bills.
The Supplier/Contractor shall upload the details of Invoices issued by him in the monthly return (GSTR-1) of the month in which Tax Invoices are raised to enable RINL to claim Input Tax Credit under GST. Otherwise, Payment of GST will not be made.
- 11) ADVANCE: No advance of any sort will be given by VSP.
- 12) PAYMENT TERMS: Payment will be made monthly on recommendations of the Engineer basing on the quantities executed, at accepted rates.
- 13) MEASUREMENTS: The contractor shall take measurements jointly with the Engineer or his representative and keep joint records for the same. Bills shall be prepared and submitted by the contractor basing on agreed measurements.
- 14) INITIAL SECURITY DEPOSIT (ISD): Initial Security Deposit for the work shall be @ 2% of contract price. Earnest Money Deposited by the successful tenderer shall be adjusted against ISD, and the difference between ISD and EMD shall be deposited in the manner mentioned in the work order/letter of intent.
- 15) RETENTION MONEY: Retention Money for contracts up to a value of Rs. 100 lakhs, at the rate of 7.5% of the bills for works with defective liability period *not NIL* and at the rate of 5.0% for works with defective liability period "*NIL*" will be deducted from each bill until this amount together with the Initial Security Deposit reach the limit of retention which is 7.5% or 5.0% as the case may be for the value of work. The Retention Money shall be released after the satisfactory completion of defect liability period after liquidating the defects. For contracts of value above Rs.100 Lakhs, the limit of retention money shall be Rs.7.5 lakhs plus 5% of the value exceeding Rs.100 lakhs.
- 16) Security Deposit: : The Public Sector Enterprises or State/Central Government Undertakings/ MSEs shall be required to submit a "Performance Guarantee Bond" of requisite value in the prescribed proforma in lieu of Security Deposit covering the period of contract + defect liability period + 6 months (Claim period). It may be noted that waiver of Security Deposit is permitted only up to the monetary limit as specified in the proof of enlistment for which the unit is registered for MSEs.
- 17) Recovery of income tax at source will be made from contractor's bill and deposited with Income Tax Department as per rules. Recovery of sales tax applicable shall be made from the contractor's bills.

- 18) SAFETY:
- a) The contractor and his workers must strictly take all safety precautions and shall supply to his workers dependable safety appliances like hand gloves, safety boots, safety belt, safety helmets, duster cloth, dust mask/nostril filter etc. In addition to this, contractor shall also provide additional safety appliances as per requirement and follow safe working practices like using fully insulated electrode holders etc. He shall also ensure that his workmen intelligently use only dependable safety appliances supplied to them.
 - b) The contractor shall take adequate safety precaution to prevent accidents at site. The contractor shall also ensure that his employees observe the statutory safety rules and regulations and also those laid down by the employer from time to time and promptly submit report of accident and state the measures taken by him to prevent their recurrence and also keep the employer indemnified of all claims arising out of such accidents.
 - c) No Workmen shall be engaged on the work without proper safety induction and without using required PPE. Use of safety helmet and shoe is must excepting in painting works where shoe will not be used.
 - d) All the safety appliances required for safe working as decided by SED/Contract operating department shall be provided by the contractor to his workmen.
 - e) Clearance to start the job will be obtained by the contractor in form 'A&B' before start of work. The forms may be obtained from the dept. concerned.
 - f) Works at height cannot be started without clearance from Zonal Safety Officer. The workers engaged for work at height shall possess height pass from SED. The names of workmen working at height or in hazardous areas will be written on the body of form "B".
 - g) Contravention of any safety regulation of VSP in vogue from time to time will result into work stoppage, levying penalties and ultimately in contract termination.

The list of safety violations by Contractor category wise are as follows:

- I. Category-I of Safety Violations:
Penalty amount: First offence Rs.1000/-, 2nd or subsequent offences Rs.2000/-
For Works / Non-works.
Penalty amount: First offence Rs.1000/-, 2nd or subsequent offences Rs.2000/-
For Projects
 - (1) Not wearing crash helmet while riding Two-Wheeler in plant premises.
- II. Category-II of Safety Violations (Minor Violations):
Penalty amount: Rs.3000/- - For Works / Non-works.
Penalty amount: Rs.5000/- - For Projects
 - A. HEIGHT:
 - (1) Height Pass not made / not available;
 - (2) Unauthorized entry at height / hazardous locations;
 - (3) Fall arrester not provided / used;
 - (4) Horizontal life line / guide rope not provided for anchoring full body safety harness.
 - B. EXCAVATION:
 - (1) Proper ladder/steps not provided for descending / ascending;
 - (2) Shutting not done (below 2 mts. Level) of excavation;
 - (3) Overhanging burden in pit not removed in excavation;
 - (4) Excavated materials left near the edge of the pit.
 - C. ELECTRICAL:
 - (1) Power cable clamped with G. I. Wires to post / pillar;
 - (2) Power cables tied on reinforce rod / structure without proper insulation;
 - (3) Loose connection taken from sockets without proper plug;
 - (4) Taking shelter behind electrical panel;
 - (5) Power cables / electrical wires lying on ground in hap-hazard manner;

- (6) Source of supply / danger board not displayed on the electrical equipment;
- (7) Electrical Control Post not provided with Barricade / Shelter / Canopy;
- (8) Cables used having many joints;
- (9) Earthing not provided on Electrical Equipments;
- (10) ELCB not installed.

D. MATERIAL HANDLING:

- (1) Use of damaged slings / tools / ropes;
- (2) Fitness certificate of cranes / hydras / heavy vehicles not available;
- (3) Crane rope conditions not ok;
- (4) Rope of crane not clamped properly;
- (5) Guy ropes not used during shifting of materials.

E. GAS CUTTING:

- (1) Rolling / lifting of cylinders (without cage);
- (2) Gas cutting without required PPEs;
- (3) Gas hose pipe clamping done by wires;
- (4) Usage of LPG Cylinder beyond date of expiry;
- (5) Wet bags / covers not put on gas cylinder;
- (6) Loading / Unloading of cylinder – cushion not given.
- (7) Condition of hose pipe not good;
- (8) Working with leaking cylinder;
- (9) Flash Back Arrestor not provided at Torch / Cylinder ends;
- (10) Colour coding of gas cutting of hoses not followed.

F. ARC WELDING:

- (1) Welding with non-standard holder
- (2) Welding machine earthing not done (Double body earthing);
- (3) Using improper welding cable;
- (4) Welding cables used with many joints;
- (5) Lugs not provided for connecting cables to welding machines;
- (6) Local isolation switch not provided on welding machines.

G. PPEs:

- (1) Non usage of PPEs at site such as Safety Helmet, Shoes, Goggles, Hand Gloves, Face Shields etc., as per requirement.

H. VEHICLE:

- (1) Driving of heavy vehicles on the main road during restricted hours & restricted routes;
- (2) Parking at unauthorized place;
- (3) Using of truck with damaged body;
- (4) Dropping / Spillage of material on the road;
- (5) No number plate on vehicle;
- (6) No head light / signal lights / brake light / horn / reverse horn on the vehicle;
- (7) Types of vehicle having patching / bolting;
- (8) Violation of approved speed limits during plying on the road;
- (9) No front / rear wheel guards on Hydra;
- (10) Un-authorized dumping of material;
- (11) Driving license not available / in-valid;
- (12) Driving of two wheeler carrying more than one pillion rider;
- (13) Driving dangerously;
- (14) Overloading of vehicles;
- (15) Talking on cell phone while driving;

- (16) Vehicles transporting loads without tying / securing of loads / stock protruding out of the truck body / without red flags / red lights, side guards, donnage;
- (17) Drunk & driving;
- (18) Non availability o reverse horn of moving equipment;
- (19) Using hydra for material transportation on roads;
- (20) Marching of hydra without signal man & red flags;
- (21) Using trucks for transportation of persons.

I. PERMITS:

- (1) Working without work permit / shut down
- (2) Not putting red flags / stopper
- (3) Dismantling of structure without authorized plan
- (4) Unauthorized oxygen tapping
- (5) Working on VSP installations without permission
- (6) Critical / heavy erection of structures without authorized plan.

J. GENERAL:

- (1) Not having proper gate passes / other area passes
- (2) Not reporting of accident
- (3) Hand grinders / mixer machines without guard
- (4) Make-shift arrangement for job execution
- (5) Engaging workers without safety training
- (6) Using of defective tools
- (7) Unauthorized operation of equipment

K. STATUTORY RECORDS:

- (1) Safe Working Load (SWL) Certificates of lifting machines / equipments not valid / not available / details not displayed on the equipment
- (2) Valid Test Certificates of Electrical Hand Gloves / Full Body harness not available
- (3) Eye examination records of vehicle / crane operators not available
- (4) Electrical Authorization not available
- (5) Vehicles plying without valid insurance, valid fitness certificate, valid pollution under control certificate.

III. Minor subsequent – Repetition of safety violations as detailed under Category – li above

Penalty amount: 1st repetition of violation Rs.12,000/-, 2nd repetition of violation onwards Rs.24,000/- - For Works / Non-Works

Penalty amount: 1st repetition of violation Rs.15,000/-, 2nd repetition of violation onwards Rs.25,000/- - For Projects

IV. Category – IV of Safety Violations (Major Violations)

Penalty amount: Rs.20,000/- - For Works / Non-Works

Penalty amount: Rs.40,000/- - For Projects

HEIGHT:

- (1) Using bamboo / or other non-standard material for scaffolding
- (2) Railing not given at platforms or opening of floor
- (3) Scaffolding planks not tied
- (4) Throwing / dropping of material from height
- (5) Proper ladder / approach not given for working at height
- (6) Full body harness (FBH) not wearing
- (7) Lifeline of FBH not anchoring
- (8) Floor opening left unguarded in the area of work
- (9) Working at roof without daily permit
- (10) Walkway / cross over path not provided

EXCAVATION:

- (1) No barricading of excavated pits

ELECTRICAL:

- (1) Unauthorized working on electrical equipment

VEHICLE:

- (1) Sleeping under truck

ARC WELDING:

- (1) Welding screen not used

GENERAL:

- (1) Absence of Supervisor at work site
- (2) Leaving loose sheets on the roof tops

- V. Fatal Accidents / Permanent disability
Penalty amount: 20% of contract value subjected to Min. Rs.1.00 lakh and Max. Rs.5.00 lakhs or banning of business dealing or both. – For Works / Non-Works
Penalty amount: 10% of contract value subjected to Min. Rs.5.00 lakhs and Max. Rs.10.00 lakhs or banning of business dealing or both. – For Projects

Note:

- 1) Any other violation which is not listed above having potential to endanger human life / Property shall be liable for penalty under any of the categories listed above.
- 2) Independent of the above, the contractor shall be debarred from taking up further contractual work in VSP in case any repeated fatal accident after 3rd incident for the reasonable attributable to Contractor.
- 3) The Safety violations have been classified into five categories (I to V). Without prejudice to the right conferred by the Clause No. 16(g) of Special Conditions of Contract for stoppage of work for violation of safety rules, the contractor shall be liable for penalty at the rates as indicated depending upon the category of violation.
- 4) The penalties mentioned above are in addition to those which are applicable as per the Statutory Acts & Rules. In case of any imposed penalty by any Statutory Authority, the same shall be over and above the contractual clauses.
- 5) The above penalties related to the accidents mentioned at Category-V will be imposed on agency in case the reasons to the accidents are attributable to the agency.

AUTHORITY FOR IMPOSING PENALTIES:

- 1) Penalty for violations falling under the Categories (I), (II) & (III) will be imposed by Engineer Incharge based on the findings by the designated officer of SED / Departmental Safety Officer / Zonal / Project Safety Officer / Operating Authority, a copy of the penalty imposition .
 - 2) Penalty to the violations falling under the Categories (IV) & (V) will be imposed by the Engineer Incharge, based on the recommendation of Head of SED in consultation with the Head of Operating Department.
 - 3) The penalty amount shall be recoverable from any bill and / or EMD / SD of the contractor without any further reference to him.
 - 4) For violations falling under the Category (V), besides penalty action for banning of business dealings with the contractor will be initiated, if recommended by the committee for enquiring into fatal cases.
- h) "The contractor shall ensure that the Welders and Gas Cutters wear cotton dress and leather apron. They shall not wear nylon/synthetic dress. This is required to avoid any fire accident. This must be followed strictly".

- 19) SHUTDOWNS:
 - A) Necessary shutdowns will be arranged by VSP to the contractor for carrying out the work based on requirement. No claims on account of delayed/prolonged shutdown will be entertained.
 - B) The works assigned to the contractor by the Engineer from time to time shall be completed within the time schedule fixed by the Engineer in each case, within the approved shut down period.
- 20) LABOUR DEPLOYMENT:
 - A) The contractor shall deploy his labour as per requirement and as instructed by the Engineer. It may be necessary to carryout the work round the clock based on requirement and shutdown provided. The contractor's rate shall cover such eventualities.
 - B) Only trained, experienced, safety inducted workers acceptable to the Engineer shall be engaged on this work, work shall be executed as per specifications to the satisfaction of the Engineer.
 - C) As and when need arises in the Annual works from time to time either for extra requirement of work or as a replacement in running contracts or a contract commencing for the first time, the contractor shall ensure that Displaced Persons (DPs) are engaged in unskilled category of workers to the extent of 50% (fifty percent). The contractor shall contract the Engineer-in-charge for this purpose.
 - D) "As and when need arises in the annual works from time to time either for extra requirement of work or as a replacement in running contracts or a contract commencing for the first time in semi-skilled category, the contractor shall ensure the minimum qualification of ITI in the relevant field for such semi-skilled category of workers. The contractor will also ensure to engage 50% (Fifty percent) of such semi-skilled vacancies from Displaced Persons (DPs) category. The contractor shall contact the Engineer-in-charge (EIC) for this purpose".
 - E) The Contractor shall engage contract worker(s) who do not have any adverse record with respect to his character in the past. For this purpose, the character and antecedents of the proposed worker(s) whom the Contractor intended to engage, shall be got verified by the Police and report shall be submitted. Till such time the report is submitted, the proposed contract worker(s) will be given only provisional pass and the pass will be cancelled in case any adverse report is reported.
- 21) SECURITY REGULATIONS: The contractor shall abide by and also observe all security regulations promulgated from time to time by the employer.
- 22) STORING/STACKING OF MATERIALS: Storing/Stacking/Placing of materials shall be only at the places designated by the engineer.
- 23) The contractor, his supervisors and workmen shall observe entry and exit timings strictly.
- 24) After completion of work activity, the site has to be cleared of all debris, construction material and the like.
- 25) The successful tenderer shall start the work immediately after obtaining gate passes and safety induction training and clearance from the Employer.
- 26) NOTICES: Any notice to be given to the contractor under terms of the contract shall be considered duly served, if the same has been delivered to, left for or posted by registered post to the contractors principal place of business (or in the event of the contractor being a company, its registered office), at the site or to their last known address.
- 27) DEFAULT BY TENDERERS: The successful tenderer may be debarred at the discretion of the company, from issue of further tender documents, work orders etc., for a specified period to be decided by the employer in case of :
"Undue delay in starting and execution of work awarded, poor performance, backing out from the tender, non accepting work order/LOI during the validity of tender or non observance of safety rules and regulations, misappropriation of company's materials/property, non payment of due wages to labour or such similar defaults".
- 28) Successful tenderer should be in a position to produce the Original Certificate in support of the attested copies of relevant documents enclosed along with pre-qualification documents or afterwards, after opening of the Price Bids.
- 29) Failure to produce the original certificates at this stage in support of the attested copies of PF Registration/ITCC/Electrical License/Experience/Qualification any other documents etc., submitted earlier would result in disqualification and forfeiture of EMD and also liable for debarring from participation in VSP tenders.

- 30) If it comes to the notice of VSP at any stage right from request for registration/tender document that any of the certificates/documents submitted by applicant for registration or by bidders are found to be false/fake/doctored, the party will be debarred from participation in all VSP tenders for a period of 05 (FIVE) YEARS including termination of Contract, if awarded. EMD / Security Deposit etc., if any, will be forfeited. The Contracting Agency in such cases shall make good to VSP any loss or damage resulting from such termination. Contracts in operation any where in VSP will also be terminated with attendant fall outs like forfeiture of E.M.D. / Security Deposit, if any, and recovery of risk and cost charges etc. Decision of V.S.P. Management will be final and binding.
- 31) Failure to execute the work after LOI/WORK ORDER is given, will make the party liable for debarring for a period of 2 (TWO) YEARS.
- 32) In case it is found before/after award of work to the person/agency through Limited Tender Enquiry (LTE) that the same person/agency is proprietor/proprietress/partner of two or more separate agencies and quoted for the same work, then punitive action to the extent of debarring up to 02 (Two) years from participating in VSP tenders will be taken.
- 33) In case the Tenderers revoke/withdraw/cancel their tender or they vary any terms of their tender during the validity period of the tender without the written consent of Visakhapatnam Steel Plant (VSP) or in the event of VSP accepting their tender and fail to deposit the required security money, execute the Agreement and fail to start the work within reasonable time (to be determined by the Engineer) after written acceptance of their tender – EMD submitted by them will be forfeited by VSP.
- 34) Contractor shall note that:
- i) Time for mobilization after issue of FAX Letter of Intent/detailed Letter of Intent / Work Order shall be;
 - a. 03 (Three) days for Capital Repairs
 - b. 15 days for Civil Works
 - c. 60 days for painting works of Structural Engineering Department
 - d. 07 (Seven) days for Annual Mechanical, Electrical and works of technological assistance/cleaning.
 - ii) Re-starting the work after disruption shall be within 04 (Four) to 06 (Six) hours after the cause of disruption is removed as decided by the HOD.
 - iii) Notice period for Contract Termination shall be - 03 (Three) hours in the event of breakdowns, 02 (Two) days in Capital Repairs and 10 days in other works.
- Failure to adhere to above stipulations may result in Termination of contract at risk & cost and will make the party liable for debarring for a period o 2 (Two) years.*
- 35) Agencies are required to submit Bank Guarantee for the value as decided by the Engineer as a Security while taking out Equipment/Components/materials of VSP to their workshop situated outside the VSP premises for carrying out repairs.
- 36) In case of revision in RINL / VSP approved wage rate, consequent to the revision in the minimum wages (either in Basic Wage or Living Allowances) as notified by the Regional Labour Commissioner (Central), VISAKHAPATNAM, Escalation amount to the contract shall be payable as per the following formula:

$$V=a*(USR-USRo)+b*(SSR-SSRo)+c*(SKR-SKRo)$$

WHERE:

V = Escalation Payable

a = man days present by USW during the billing period

b = man days present by SSW during the billing period

c = man days present by SKW during the billing period

USR = Revised VSP approved Rate for USW at the time of billing

SSR = Revised VSP approved Rate for SSW at the time of billing

SKR = Revised VSP approved Rate for SKW at the time of billing

USRo = VSP approved Rate for USW indicated based on which the Estimate of work was prepared,

SSRo = VSP approved Rate for SSW indicated based on which the Estimate of work was prepared,

SKRo = VSP approved Rate for SKW indicated based on which the Estimate of work was prepared

(The above escalation shall be independent of the award percentage whether positive or negative)

37) **PAYMENT OF MINIMUM WAGES :**

37.1. *Wages paid to the workmen by the contractor should not be less than the rates notified by the Regional Labour Commissioner (Central), VISAKHAPATNAM, from time to time with regard to the minimum wages applicable to the respective categories of workmen plus the ad-hoc amount at the rate of Rs.11.54ps as per working day per workman per category. Wages with ad-hoc amount to the workmen should be paid on or before the 7th of the subsequent month. if 7th falls on a holiday or weekly off day, the payment should be made one day prior to that. Payment of PF for the month, both the employer's (in this case contractor) and employee's (in this case workmen employed by the contractor) contributions should be deposited in the bank in the permanent PF code number and challan obtained before the 15th of the subsequent month and forwarded to the Engineer". In case of failure of the contractor to comply with any of the above, the following action will be taken by VSP.*

- 1a) Lapse -----Payment of wages at rates less than those notified under the minimum wages.
Action by VSP -----An amount equivalent to the differential amount between wages to be paid under minimum wages notification of the Government applicable for the period less actual wages paid shall be recovered from the bills as certified by the engineer.
- b) Lapse -----Non payment of adhoc amount
Action by VSP -----An amount equivalent to actual payable towards adhoc amount to the workmen engaged for relevant period shall be recovered from the bills as certified by the Engr.
- 2) Lapse -----Non payment of wages
Action by VSP -----An amount equivalent to wages payable by the contractor applicable for the relevant period shall be recovered from the bills as certified by the Engineer.
- 3) Lapse -----Non payment of PF
Action by VSP -----Recovery of PF amount and an amount equivalent to maximum penalty leviable by Regional Provident Fund Commissioner for the delayed period under the provisions of ERP & MP Act and Rules for delayed remittance of PF contributions (both the employee's and employer's contribution), shall be recovered from the bills of contractor as certified by Engineer.
- 4) Lapse -----Delayed payment of PF
Action by VSP ----- An amount equivalent to maximum penalty leviable by Regional provident Fund Commissioner for the delayed period under the provisions of EPF & MP Act and rules for delayed remittance of PF contributions (both the employee's and employer's contribution), shall be recovered from the bills of the contractor as certified by Engineer.

- 37.2. The contractor shall have to pay WELFARE ALLOWANCE (earlier known as SMA, ASMA) towards fuel charges, food, milk, tiffin, coconut water, washing allowance etc @ Rs.80.76ps per day of actual attendance of each worker deployed in the contract not exceeding Rs.2100/- per month in addition to the wages as indicated in the minimum wages clause of Special Conditions of Contract . The contractor will submit his claim with proof of such payment made in this connection in the RA Bill and the same amount will be reimbursed/paid to him.
- 37.2.1. It may be noted that the payment of WELFARE ALLOWANCE is towards the expenditure incurred by the contract labour towards Fuel Charge, Coconut Water Allowance, Washing Allowance, Food/Milk/Tiffin Allowance.
- 37.2.2. The contractor is required to take the above aspects into consideration while submitting their offers and no profit/overhead charges will be paid by VSP on this account.
- 37.2.3. As regards applicability of payment of WELFARE ALLOWANCE, the contractor may refer NIT/Terms & Conditions of the contract in this regard.
- 37.2.4. Welfare Allowance (SMA & ASMA) shall be payable to contract labour deployed in site in Highly Skilled, Skilled, Semiskilled and Unskilled categories including supervisors other than Service Engineers/Engineers/Contractor's representative/ Administrative staff of contractors e.g., HR officers, Office Staff, Regular Employees of Contracting agency, drivers deployed for their staff cars / envisaged temporary contract labour on one time basis / additional contract labour engaged on one time basis (during execution)
- 37.3. (a) Penalty for delayed payment / non-payment of wages:
If the contractor fails to pay wages within the stipulated time ie., by 7th working day of the subsequent month, a penalty up to 1% of the gross wages (Basic, DA & Over time (if any) except Adhoc, SMA, ASMA and other allowances) of the workers will be levied for every day of lapse subject to a maximum of 10% in any calendar month. This is without prejudice to appropriate action against the contractor including debarring, in case of perpetual / habitual default".
- (b) Payment of wages through banks:
The contractor shall pay wages not less than the minimum wages notified by the appropriate Government from time to time to the workers deployed by him. The payment shall be made on the due dates either by way of crossed cheques or crediting the wages to the bank accounts of the concerned contract workers. Proof of such payment shall be submitted by the contractor to the Engineer Incharge by 10th of the subsequent calendar month.
- 38) The contract period can be extended at the discretion of V.S.P. up to 04 (Four) months at the existing Rates, Terms and conditions and the Contractor shall be bound to execute the work accordingly and the offer of the Contractor is deemed to include this aspect.
- 39) The tenderers shall note that in case of quoting above the Estimated Value of V.S.P. the L-1 party shall furnish logical / satisfactory explanation which V.S.P. may seek if felt necessary for quoting such high rates. If the explanation offered by the L-1 party is not acceptable to V.S.P., the L-1 party may be recommended for disqualification while retendering the work.
- 40) The contractor should clearly understand and comply with the Factories Act 1948 and relieve the FEMALE WORKERS from their work site within the restricted working hours prescribed therein under section 66(b).

41) The following deductions per workman deployed category-wise shall be made from the bills/amounts due to the contractor as applicable for the work done and such deducted amounts shall be released as mentioned below:

- 1) Component ----- Notice pay
Recovery amount per labour per every working day ----
USK ----NIL SSK ----NIL, SK----NIL
- 2) Component ----- Retrenchment compensation
Recovery amount per labour per every working day -----
USK ----Rs.25.53 ps, SSK ----Rs.28.79 ps, SK----Rs.33.81 ps
- 3) Component ----- Leave with wages
Recovery amount per labour per every working day
USK ----Rs.31.42 ps, SSK ----Rs.35.43 ps, SK----Rs.41.61 ps

To be released when ----- After the contractor makes payment to the work men in the presence of Engineer Incharge and CLC representatives, a certificate to this effect is to be enclosed with pre-final bill (to be paid with pre-final bill).

Sub-total -
USK ----Rs.56.95 ps, SSK ----Rs.64.22 ps, SK----Rs.75.42 ps

- 4) Component ----- Bonus
Recovery amount per labour per every working day
USK ----Rs.51.04 ps, SSK ----Rs.57.55 ps, SK----Rs.67.59 ps

To be released when ----- After the contractor makes the payment to the workmen in the presence of Engineer Incharge and CLC representatives, a certificate to this effect is to be enclosed with RA bill / pre-final bill (to be paid with RA bill / pre-final bill as and when paid by the contractor).

GRAND TOTAL
USK ----Rs.107.99 ps, SSK ----Rs.121.77 ps, SK----Rs.143.01 ps
10% towards profit and over heads of contractor
USK ----Rs.10.80 ps, SSK ----Rs.12.18 ps, SK----Rs.14.30 ps
Total recovery amount
USK ----Rs.118.79 ps, SSK ----Rs.133.95 ps, SK----Rs.157.31 ps

Note:

- i) The above recovery rates are effective from 01/10/2022. In case of any statutory revision in minimum wages payable to contract workmen as notified by the Regional Labour Commissioner (Central), VISAKHAPATNAM from time to time, the above recovery amounts for workmen category-wise will be revised by RINL/VSP and will be notified accordingly.
- ii) Payment against the above component is to be made to the workmen based on effective wages of last drawn pay.
- iii) The contractor shall have to pay the Terminal Benefits like Notice pay (if notice is not served by the contractor to the workman as per statutory requirements), Retrenchment compensation, Annual leave with wages and bonus to the contract labour as per statutory provisions applicable to them at the end of the work order or extension of contract, if any and as the case may be, through Bank and submit the proof thereof for the release of Pre-Final/ Final Bill by RINL to the contractor, failing which it will be deemed that the contractor had not paid the dues to the contract labour and RINL will release the terminal benefits payable to the contract labour engaged by the contractor by defraying the same from the amount recovered by and available with it towards the terminal benefits from the bills of the contractor and any other sums of the contractor available with the RINL, further the contractor will be debarred for a period of one year from participating in any of the RINL's future tenders from the date of the order

42) PAYMENT MODE FOR BILL AMOUNTS:

42.1 Following are the options available to the Contractors for availing e-payments.

42.1.1 **EFT System:** Under this system Banks offer their customers money Transfer service from account of any bank branch to any other Bank Branch. The EFT system presently covers all the branches of about 77 banks located at 15 centers indicated below, where clearing houses are managed by RBI i.e.,

- i) New Delhi ii) Chandigarh iii) Kanpur iv) Jaipur v) Ahmedabad vi) Mumbai vii) Nagpur viii) Hyderabad ix) Bangalore x) Chennai xi) Trivendrum xii) Kolkata xiii) Bhubaneswar xiv) Guwahati xv) Patna.

42.1.2 **Direct Credit:** Suppliers opting for this system may open Bank accounts with any one of the following banks.

- i) State Bank of India - Steel Plant Branch
- ii) Canara Bank - Steel Plant Branch
- iii) Bank of Baroda - Steel Plant Branch
- iv) State Bank of Hyderabad - Steel Plant Township Branch
- v) Andhra Bank - Steel Plant Township Branch
- vi) UCO Bank - Steel Plant Township Branch
- vii) IDBI - Visakhapatnam Branch

42.2 The Successful tenderer shall agree that all the payment due and payable in terms of the contract will be paid direct to his bank account and he shall give the bank account number and the address of the Bank in which the money is to be deposited" as per the format given below:

- (1) Vendor Code :
- (2) Option : RTGS / EFT
- (3) Beneficiary Details
 - a) Name of Beneficiary (Max.35 characters) :
 - b) Bank Name (Max. 35 characters) :
 - c) Branch Name (Max. 35 characters) :
 - d) Account Number (Max. 35 characters) :
 - e) Account type (Max. 35 characters) :
(Savings / Current / Overdraft) [Mention Code No. also]
 - f) Beneficiary Bank's IFSC Code (Max. 11 characters):
(For RTGS Mode only)
 - g) Beneficiary Bank's MICR Code (Max.09 characters):
(For EFT Mode only)

(Signature of the Party / Contractor)

Name:

Desgn:

CERTIFICATE

Certified that the above particulars are found to be correct and matching with our records in respect of the above beneficiary.

Sd/-.....

(Signature of Branch Manager)

Name :

Seal of Bank :

42.3 The contractor has to submit their bank account details in VSP format duly certified by Concerned Bank Manager for the purpose of making electronic payment before submission of First Running Account Bill, failing which the bill will not be processed.

42.4 The Successful tenderer is required to give an undertaking to the Finance Department of VSP that the payment made by RINL/ VSP of any sum due to him by directly remitting the same in his bank, the address and the number of which is to be furnished, shall be in full discharge of the particular bill raised by him, and that he shall not have any claim in respect of the same".

- 42.5 *In respect of payment made through Electronic Fund Transfer mechanism or Direct Credit to the supplier's/contractor's bank account, the supplier/contractor/receiver should intimate discrepancies, if any, within 10 days from the date of dispatch of intimation letter of payment to them to Finance Department of VSP failing which it shall be presumed that the funds have reached to their bank account and that no claims will be entertained after the said 10 days.*
- 43) **CLAUSES CONCERNING INPUT TAX CREDIT (ITC) AGAINST GST:**
- a) The successful tenderer shall take necessary steps to comply with the rules and provisions of GST law facilitating VSP to avail ITC.
 - b) Price condition: Tenderers shall quote the price of the goods or services excluding GST. Applicable GST shall be indicated against each item and will be paid extra on submission of tax invoice.
In case tenderer opted for composition scheme, GST will not be charged extra and the price quoted includes the GST applicable to composite scheme. Tenderers have to specify that they have opted for composition scheme and GST is included as applicable for composition.
Evaluation criteria:
 - 1. In case of supply of goods or services on which RINL / VSP is eligible to avail GST input tax credit, evaluation of tender shall be on the basis of landed cost excluding GST.
 - 2. In case of supply of goods or services on which the employer (RINL/VSP) is not eligible to avail GST input tax credit, the applicable GST payable by RINL/VSP (in case of unregistered taxable supplies) or GST to be charged by the registered taxable supplier as applicable, shall be added to the landed cost for evaluation purposes.
 - b) The tax invoice raised by the Contractor should clearly mention VSP as the recipient. It should be ensured that material has been delivered along with the duplicate for transporter copy of the tax invoice, based on which Input Tax Credit is to be claimed.
 - d) The duty paying documents shall be submitted as soon as the material is procured by the agency for incorporation in the work. In case the material is supplied from a third party, it should be backed up with a GST Tax Invoice from Contractor.
 - e) Material once received in to the factory would not be allowed to go outside the factory premises for any reason. Excess/Rejected material will be allowed to be taken back after complying with the provisions of GST Act.
- 43.1 Vendor/Supplier/Contractor shall comply with all the necessary statutory compliances including but not limited to providing GST invoices or other documentation as per GST law relating to the above supply/service to RINL, uploading the details of the invoice, payment of taxes, timely filing of valid statutory returns for the tax period in the Goods and Service Tax Portal.
In case of Input Tax Credit of GST is denied or demand is recovered from RINL on account of any act of the Vendor, including but not limited to non-payment of GST charged and recovered, non-generation of E-Way Bill, non-filing of Returns, non-uploading/improper uploading of valid invoices raised on RINL in the Returns etc., the Vendor/Supplier/Contractor shall indemnify RINL in respect of all claims of tax, penalty and / or interest, loss, damages, costs, expenses and liability that may arise due to such non-compliance. Such amount shall be recovered from any payments due to the vendor/supplier/contractor or from security deposit or any other amount available in the same contract or in other contracts including future contracts.
If any tax has been paid by the vendor/supplier/contractor in pursuance of any demand on account of suppression, fraud or willful misstatements of facts, then the same shall not be passed on to RINL through debit notes or invoices or supplementary invoices.
- 44) RINL reserves the right to reject the offers of tenderers whose performance is poor in awarded / ongoing works if any.
- 45) If the tenderer's quoted price appears to be abnormally low, the Tender Committee may seek written clarification from the bidder to demonstrate his capabilities to deliver the contract at offered price. In case the Tender Committee is not satisfied with the tenderer's clarifications, the proposal/bid may be rejected. Such tenderer may be recommended for disqualification from participating while retendering the subject work.

- 46) Procedure for Banning of Business Dealings with the Parties / Contractors / Suppliers / Customers / Purchasers / Bidders/ Tenderers
1. RINL may ban/ suspend the Business Dealing with the agency / remove the agency from the list of registered supplier/ contractors (with / without inter connected agencies) at any stage of the contract viz. Tendering, Awarding, Execution and during or even after expiry of Defect Liability Period/ Warranty/ Guarantee Period on the following grounds:
- (a) If the Agency has been convicted of an offence under:
 - i) The Prevention of Corruption Act, 1988; or
 - ii) The Indian Penal Code or any other law for the time being in force, for causing any loss of life or property or causing a threat to public health as part of execution of a public procurement contract.
the Agency shall be debarred for a period as specified in the General Financial Rules (GFR) issued by Govt. of India;
 - (b) If it is determined that the Agency has breached the code of Integrity, the Agency shall be debarred for a period as specified in the General Financial Rules (GFR) issued by Govt. of India;
 - (c) In case of violation/ transgression of Integrity Pact (IP);
 - (d) If the security consideration, including questions of loyalty of the Agency to the State, so warrants;
 - (e) If the Director / Owner of the Agency, proprietor or partner of the firm, is convicted by a Court of Law for offences involving moral turpitude in relation to its business dealings with the Government or any other public sector enterprises or RINL, during the last five years;
 - (f) If there is strong justification for believing that the Directors, Proprietors, Partners, owner of the Agency have been guilty of malpractices such as bribery, corruption, fraud, substitution of tenders, interpolations, etc;
 - (g) If the Agency continuously refuses to return / refund the dues of RINL without showing adequate reason and this is not due to any reasonable dispute which would attract proceedings in arbitration or Court of Law;
 - (h) If the Agency employs a public servant dismissed / removed or employs a person convicted for an offence involving corruption or abetment of such offence;
 - (i) If business dealings with the Agency have been banned by the Govt. or any other public sector enterprise;
 - (j) If the Agency has resorted to Corrupt, fraudulent practices including misrepresentation of facts and / or fudging / forging / tampering of documents;
 - (k) If the Agency uses intimidation / threatening or brings undue outside pressure on the Company (RINL) or its official in acceptance / performances of the job under the contract;
 - (l) If the Agency indulges in repeated and / or deliberate use of delay tactics in complying with contractual stipulations;
 - (m) Willful indulgence by the Agency in supplying sub-standard material irrespective of whether pre- despatch inspection was carried out by Company (RINL) or not;
 - (n) Based on the findings of the investigation report of CBI/ Police against the Agency for malafide/ unlawful acts or improper conduct on his part in matters relating to the Company (RINL) or even otherwise;
 - (o) Established litigant nature of the Agency to derive undue benefit;
 - (p) Continued poor performance of the Agency in several contracts;
 - (q) If the Agency misuses the premises or facilities of the Company (RINL), forcefully occupies, tampers or damages the Company's properties including land, water resources, forests / trees, etc.

(Note: The examples given above are only illustrative and not exhaustive. RINL may decide to ban/suspend business dealing for any good and sufficient reason. Any other banning clauses mentioned elsewhere in the Tender Documents shall also be considered as a ground for banning/suspension of business dealing.)

2. 'Inter-connected Agency' shall mean two or more agencies having any of the following features:
 - (a) If one is a subsidiary of the other.
 - (b) If the Director(s), Partner(s) Manager(s) or Representative(s) are common;
 - (c) If management is common
 - (d) If one owns or controls the other in any manner
3. Any allegation(s) against an agency with good and sufficient reasons for banning business dealing with the agency, except for banning of business dealings with foreign suppliers of coal/ coke, shall be put up to Standing Banning Committee (SBC) of RINL for investigation.
4. In case of removal of the agency from the list of registered vendors/ contractors of RINL, the agency shall not be disqualified from competing in Global/ Open Tender Enquiries (GTE/OTE) but Limited Tender Enquiry (LTE)/ Single Tender Enquiry (STE)/ Short Open Tender (SOT) may not be given to the agency concerned.
5. If the allegations against any agency are of a serious nature, RINL may suspend business dealings with the agency (with / without inter connected agencies) pending investigation, with/ without any show cause notice. The suspension shall be for a maximum period of nine months (six months initial extendable by three months in case investigations are not completed) or till the decision of SBC, whichever is earlier. In case of suspension of the agency, RINL may consider to discontinue all the existing contract(s) with the agency. During the period of suspension, no further business dealing including placement of orders against tenders under finalization shall be made with the agency w.e.f. the date of suspension.
6. After issue of suspension order, till the conduct of the agency is under investigation, RINL will not entertain any correspondence / argument from the agency (except receiving reply to the show cause notice).
7. If the agency desires some information / clarification or desires to see any document before replying to the show-cause notice, the agency may appear in person in the Standing Banning Committee meeting on the stipulated date and time wherein the agency will be furnished the desired information including sharing of relevant document. If the agency requests for inspection of any relevant document in possession of RINL, necessary facility for inspection of documents will be provided. The agency may correspond only with the SBC.
8. Convener SBC shall issue notice to the agency asking him/her to attend the meeting in person or informing him/her that he/she may send his/her representative. The date, time and venue of the meeting shall be clearly mentioned in the notice. To meet the ends of 'Natural Justice ', two opportunities will be given to the agency to send their representative. In case of failure, SBC can proceed ex parte.
9. Opportunity will be given to the agency to submit any documents or evidence in his defense to SBC. Cross examination of the agency if required shall also be done by SBC.
10. The Banning Order based on the investigation by SBC shall be issued to the agency. In case of Banning of Inter -connected agencies the copy of the Banning Order shall be sent to known inter-connected agencies also.
11. Banned/Suspended agencies are not eligible for submission of quotations/offers against any type of tender (GTE/OTE/LTE/STE/SOT) during the period for which they have been suspended/banned for business dealings with RINL and if submitted, those quotations/ offers will be treated as unsolicited and shall not be considered.
12. The agency may file an appeal against the Banning Order to CMD-RINL within 30 days from the date of issue of the Banning Order.

13. Agency, may seek review of the banning order passed originally by RINL, either before or after filing of appeal before the Appellate Authority or after disposal of appeal by the Appellate Authority, upon disclosure of new facts / circumstances or subsequent development necessitating such review.
14. RINL may decide to circulate the name of agency with whom business dealings have been banned, to the Government Departments, other Public Sector Enterprises, etc. for such action as they deem appropriate.
15. If business dealing with any agency has been banned by the Central or State Government or any other Public Sector Enterprise, RINL may, without any further enquiry or investigation, issue an order banning business dealing with the agency and its inter-connected agencies.

Note: 'Party / Contractor / Consultant/ Supplier / Purchaser / Customer/ Bidder/ Tenderer' is indicated as 'Agency'.

UNDERTAKING LETTER

To
General Manager (WC) I/c
Works Contracts Department
Visakhapatnam Steel Plant
Visakhapatnam-530 031.

Name of work: **ANNUAL REPAIRS AND DAY TO DAY MAINTENANCE WORKS TO ROADS, BUILDINGS, WATER SUPPLY, SANITARY AND SEWERAGE LINES IN TOWNSHIP AND MINES OF MADHARAM DOLOMITE MINES**

RFX No. : **2600008826/MINES-MDM**

Sir,

With reference to the Notice Inviting Tender, I/We have gone through the tender documents downloaded from SRM Portal. I/We have also gone through the General Conditions of Contract of VSP available in VSP web site and noted the contents therein. I/We hereby confirm that I/We shall abide by the Terms and Conditions and General Conditions of the Contract including Form of Tender, Invitation to Tender, Articles of Agreement etc. I/We hereby declare that, I/We have visited, inspected and examined the site and its surroundings and satisfied ourselves before submitting this tender, obtained information about the nature of work, facilities that may be required and obtained necessary information about Working Conditions, risk contingencies etc., which may influence this tender. We hereby offer to execute & maintain the work during the defect liability period in conformity with the tender conditions at the respective rates quoted by us.

I/We do hereby agree that action may be taken as per Bid Security Declaration(BSD) submitted by me/us if I/We revoke/withdraw/ cancel my/our tender or if I/We vary any terms in our tender during the validity period of the tender without your written consent and/or if in the event of Visakhapatnam Steel Plant accepting my/our tender and I/We fail to deposit the required security money, execute the Agreement and/ start the work within reasonable time (to be determined by the Engineer) after written acceptance of my/our Tender.

If our Company is a Partnership Firm, if the Partnership Firm is re-constituted, I/We hereby declare that I/we will submit the latest Notarized Re-constituted Partnership Deed along with Firm Registration Certificate of the re-constituted firm and the original Notarized Partnership Deed.

Signature of the Tenderer

BID SECURITY DECLARATION
(In Lieu of EMD)

Tender No. / RFX No: 2600008826

Dated: (- -)

I/We have understood that, according to the conditions of Tender document, bids must be supported by a Bid Security Declaration (BSD). Accordingly, I am / We are submitting this "Bid Security Declaration" as follows:

I/We accept that, I/We will automatically be debarred from participation in all future tenders of RINL for a period of three (3) years and also already submitted bids (if any) shall not be considered for further evaluation, in case of any of the following:

a) If I/we withdraw/ modify our Bid after tender opening and during the period of bid validity stipulated in the tender document or any extension thereof.

Or

b) Having been notified of the acceptance of our Bid by RINL, during the period of bid validity, if I / We

i. Fail or refuse to execute the Contract. (or)

ii. Fail or refuse to furnish the security deposit, as stipulated in the Tender Document/Work Order/ Letter of Acceptance/ Purchase Order. (or)

iii. Fail or refuse to comply with any other aspect of the tender which otherwise would have involved forfeiture of EMD.

[*Signature*]

In the capacity of:

[*Legal capacity of person signing the Bid Security Declaration*]

The bidder shall submit a documentary proof (viz. certified/true copy of board resolution / Power of Attorney etc.) with respect to Legal capacity of person signing the BSD.

Name:

[*Complete name of person signing the Bid Security Declaration*]

Duly authorized to sign the bid for and on behalf of: [*Complete name of Bidder and Address*]

Date: [*Date of signing*]

Corporate Seal: (wherever applicable)

Note: In case of a Joint Venture / Consortium, wherever allowed, the BSD must be in the name of all partners to the Joint Venture / Consortium that submits the bid.
