RINL Commissions Converter-3 in SMS-2

Visakhapatnam Steel Plant added another feather in its cap by commissioning a Converter -3 in its new Steel Melting Shop-2. The Converter-3 has a production capacity of 150 Tons of liquid steel per heat. This takes the overall plant capacity to 7.3 MTPA. It may be recalled that RINL has recently modernized its Converter -3 in SMS-1. Sri P Madhusudan, CMD, RINL inaugurated the facility and congratulated SMS-2 collective for their notable performance and adherence to strict safety standards. Sri Madhusudan said that the commissioning of Converter-3 in SMS-2 would further reduce pollution and also help in achieving greater productivity.
