Chaudhary Birender Singh, Honourable Union Minister of Steel dedicates 120 MW Power Plant to the Nation

Chaudhary Birender Singh, Hon"ble Union Minister of Steel highlighted the need to be self-sufficient in power generation and RINL has rightly proved its progress in that direction. He made this observation while dedicating to the Nation, the most eco-friendly 120 MW gas based Power Plant in VSP today.

Speaking on the occasion, the Hon"ble Steel Minister said that there is a perceptual change in the consumption of coal because of the setting up more non-conventional power plants in the country using Wind energy, Solar energy etc. The Hon"ble Steel Minister said that around 1 lakh MW of power is being generated in the country from non-conventional energy sources and that around 3 lakh applications were received for setting up of solar/wind power plants in the country. He said that RINL is working on CRGO (Cold Rolled Grain Oriented) technology which adds to the reputation of the Company to boost exports. He said that RINL has many advantages of being a skilled workforce company and two major ports behind it. He advised RINL to take the advantage of the opportunity of the huge usage of steel for the construction of new capital Amaravati and other projects in Andhra Pradesh. Birender Singh highly commended RINL and its workforce for adopting an impressive and unique work culture and for a peaceful industrial scenario. He said that RINL is inching towards achieving international standards of efficiency and exhorted them to work relentlessly towards this end. Sri P Madhusudan, CMD, RINL in his welcome address said that latest technologies and green initiatives were implemented in setting up of the power plant and complimented the entire workforce and agencies for successful operations of the plant. With this, he said that RINL has emerged self sufficient in power generation. Earlier Chaudhary Birender Singh, Hon"ble
