Latest 3D Laser Scanner inaugurated in Vizag Steel

RINL-VSP has procured a latest technological tool "3D Laser Scanner" for conducting verification of volumetric raw material stocks like, coals, coke fractions etc in Raw Material Handling Division. The Scanner is procured as a part of improvement in method of stock verification.

Photo Caption: Sri V V Venugopala Rao, Director (Finance) RINL inaugurating the 3D Laser Scanner in VSP today. Sri OR Ramani, ED(Works) I/C and senior officials are seen.

Sri V V Venugopala Rao, Director (Finance) RINL inaugurated the 3D Laser Scanner today in the presence of Sri OR Ramani, ED(Works) I/c. Sri Venugopala Rao stated that RINL is always in the forefront in adopting latest technological innovations in the steel making process. He congratulated the Stock Verification wing for the initiative using the modern methods in assessing stocks in the plant. The 3D Scanner would give accurate results while verifying huge volumes of raw materials and other volumetric stocks in the plant and port areas. Sri PS Gupta, ED(Internal Audit & Stock Verification), Sri NVB Rama Sarma, DGM(Finance), senior officials of RINL were present on the occasion. Sri KV Subba Raju, AGM (IA &SV) welcomed the gathering.
