Query . I seek certain information in vazag steel plant, vishakapatnam plant how many of Group-B, Group-A officers are working and provide their names list with full surname and employee numbers

Reply to Query: - As on 01.02.2022, a total of 5233 employees are in Group-A and a total of 5480 employees are in Group-B.

Information regarding full surname is not being maintained at one place in the form as sought by the information seeker. Compiling information as sought would require retrieval of data from several files and the work would be voluminous. Retrieving such information would disproportionately divert the limited resources of the section. Hence, the applicant may be advised to inspect the information at a pre-appointed date and time.
