Bright future for Long Steel segment: Experts

Sri PK Rath, CMD said that Steel Industry plays a vital role in the economic development of the country and the industry has been growing significantly during the last few years. He said that the per capita consumption presently in India is around 75kg against the world average of more than 220kg and added that Steel Industry should focus on research and development of new products for new applications and technologically advanced products in same applications.

This observation was made by Sri Rath while delivering his inaugural address at a national seminar on "Technological Advancements and Development of new grades in Long products" organized by IIM,

Vizag Chapter in association with Vizag Steel Plant at Technical Training Institute in Ukkunagaram on 4th April. Long steel products segment play a major role in increasing the consumption of steel, which is very low in the country, as the Govt's spending on Infra, Construction, Automobile, Railway and Road sector, Defense etc, are growing significantly in the country, he said.

Sri SS Mohanty, Vice Chairman & MD, Neelachal Ispat Nigam Ltd (NINL) while delivering his key note address said that being a 100% Long Steel Quality producer, RINL-VSP has many advantages to become a leader in Long Steel market by producing value added steel products and he commended RINL for achieving a sales turnover of over Rs 20,000 Crores in FY 2018-19. He highlighted the need for setting up of customized mills for Long products like Rail Mills, Heavy and Medium section mills, High strength Low Alloy steel, Corrosion Resistant Steel mills etc to face the competition and capture the market in the country. He said that increase of steel consumption largely depends on four drivers of industry i.e. Urbanization, Motorization, Globalization and Industrialization and this would spur the demand for long steel products and steel consumption in the country.

Sri P Raychaudhury, Director (Commercial), Sri VV Venugopal Rao, Director (Finance), EDs, GMs, were present on the occasion.

Sri KK Ghosh, ED(Mills & Logistics) RINL & Chairman of IIM Vizag Chapter said that the seminar aims to bring together the experts to disseminate the recent trends and advances in Long Steel product segments.

Sri S Mandal, GM(TR) and Convener of the seminar proposed vote of thanks. Later, the dignitaries released a souvenir brought out on the occasion.

Large number of delegates from RINL, Tata steel, JSW, MN Dastur, Daniel, PrimeSteel, Metalist, Signode India, Meconetc, participated. The two day seminar will dwell upon various aspects on long Steel segment and the technological developments in the industry.

Customers are Partners in Success of RINL: Sri PK Rath, CMD

While inaugurating the meet, Sri PK Rath, CMD visualized great demand for steel as the GOI launched several infra, construction, road and rail projects aimed at enhancing the consumption of steel in the country. He mentioned that RINL is attaching high importance to the customers whom he termed as "Partners in success of RINL".

Sri Rath observed that RINL has succeeded in focusing on quality and right product mix suit to the delight of the customers and made stronger presence in the market. RINL has taken several customer-friendly policies aimed at improving the relations between them and impetus is being given to Value Added Steel production during the current year, he mentioned. Sri Rath said that RINL is targeting to achieve a highest sales turnover of Rs 25,000 Crores and a Saleable Steel production of 5.8 million tons during FY 2019-20. He expressed confidence that this target would be achievable with the active support of RINL customers. He exhorted the customers to come out with candid feedback and suggestions to further improve the product mix.

Sri P Raychaudhury, Director (Commercial) stated that customers played a vital role in achieving an highest sales turnover of Rs. 20,844 Crores during FY 2018-19 by RINL. He said that RINL is the only Company framing its Marketing Policy based on Customer suggestions and also to meet their requirements. It reflects the commitment of RINL in taking them into confidence in its journey towards success, he added. RINL is continuously in touch with the customers to strengthen the bond with them to propagate the brand image of RINL. He said that focus would be given to set up a special agency to sort out the issues, maximum usage of stockyards, improvisation of handling facility and safety of the workers in the stockyards etc. during the current year. He said that RINL is focusing on coastal shipping to further scale up the dispatches to various destinations.

Sri KC Das, Director (Personnel), Executive Directors and senior officials were present on the occasion.

Water released into KBR-2 of VSP

RINL-VSP achieved yet another milestone on 7th April when water was released from the existing Yeleru left main canal into the Kaniti Balancing Reservoir-2, marking the formal launching of the new facility in VSP.

Sri PK Rath, CMD and Sri J Harinarayan, IAS, Commissioner, GVMC jointly inaugurated the release of water into the new reservoir in the presence of Sri P Raychaudhury, Director (Commercial), Sri VV Venugopal Rao, Director (Finance), Sri R Nagarajan, ED (Projects) I/c and union leaders.

The new reservoir is built at a cost of about 465 Cores by M/S WAPCOS & M/S L&T Ltd. The new canal of 2.28 Km length was constructed to feed the water to the new reservoir. The facility is meant for meeting the additional requirement for the plant which was expanded and modernised taking the overall capacity to 7.3 million tonnes per annum. The regular pumping of water from the new reservoir will start from May 2019.

Presently Visakha Industrial Water Supply Company (VIWCO) is supplying around 60 MGD water to the existing KBR-1 which is filled up completely.

The expansion and modernization of Vizag Steel necessitated construction of another modern water storage facility to augment the water supply to the plant and township.

Accordingly, KBR - 2 is constructed adjacent to the National Highway (Kurmannapalem) at an estimated cost of Rs. 465 crores. The storage capacity of KBR - 2 is 12.32 million cubic metres and the reservoir is 24 meters depth of single compartment with emphasis on green cover around it.
